

Scales Are Barred to Governor's Coal

Lincoln, Jan. 4.—The T. B. Hord company of Central City, which owns and operates a number of grain elevators in the state, has invoked the wrath of Governor Bryan by refusing to permit the use of its scales at

Cedar Rapids for the weighing of Bryan coal. Eight cars of coal have been weighed on the scales through an arrangement between the elevator manager and the Bryan agent at Cedar Rapids, according to the governor, but orders from Central City have gone forth forbidding the manager from using the scales for other than Hord business.

"It looks like a conspiracy in restraint of trade," stormed the governor today, after declaring that his agent was temporarily unable to do business for lack of scales. The governor, however, did not state why the Hord company, which is a private corporation, should not be allowed the use of its scales by outside companies, if it so desired.

B. Raper, who served here.

Judge Begley has also been requested by the chief justice of the supreme court to preside at the session of the district court at McCook while Judge Eldred of that district is sitting on the supreme bench. London Wars on Narcotics.

London, Jan. 4.—The efforts of Scotland Yard authorities to stamp out illicit traffic in narcotics are proving successful. It was announced during the course of a case at Marlborough police court, thanks to the strenuous police campaign, the traffic in London is being suppressed. Many captures of "traffickers" have recently been made and scores of prosecutions in police courts have been the means of checking the sale of the drugs.
