

Join World Court and Help League Is Peace Plan

Reservations to Covenant of Paris Proposed by Winner of Bok Prize.

(Continued From Page One.) Nations of the earth to admit frankly that war is a crime and thus withdraw the legal and moral sanction too long permitted to it as a method of settling international disputes.

"The plans show a realization that no adequate defense against this situation has thus far been devised, and that no international law has been developed to control it.

"Through the plans as a whole run these dominant currents: 1. That, if war is honestly to be prevented, there must be a right-about-face on the part of the nations in their attitude toward it.

"2. That by some progressive agreement the manufacture and purchase of the munitions of war must be limited or stopped.

"3. That while no political mechanism alone will insure co-operation among the nations, there must be some machinery of co-operation if the will to co-operate is to be made effective.

"4. That mutual counsel among the nations is the real hope for bringing about the disavowal of war by the open avowal of its real causes and open discussion of them.

"5. That there must be some means of defining, recording, interpreting and developing the law of nations."

In the statement supporting the peace proposal, the author of the accepted plan argues at considerable length in support of the league of nations. The chief points in the arguments are as follows:

1. Five-sixths of all nations, including about four-fifths of mankind, are already members of the league.

2. Those nations cannot and will not abandon the league, which has now been actively operating for three and a half years.

3. Intimations that such was the case were given by "other powers" at the Washington conference for the limitation of naval armament.

4. Since force of social international gravitation makes the co-operation of the United States inevitable.

5. The United States has already taken part in the humanitarian activities of the league, "unofficially" as well as in the work of the hydrographic bureau and with the agricultural committee of the league labor organization.

6. President Harding and Secretary Hughes have urged joining the world court since the plan was written. President Coolidge has repeated this recommendation.

7. American women serve as expert assessors upon the opium and traffic in women commissions of the league.

8. The practical experience of the league during its first three and a half years of life has not only wrought out, in a group of precedents, the beginning of what may be called the constitutional law of the league, but it has also shifted the emphasis in activities of the league and foreshadowed important modifications in its constitution, the covenant.

9. At its birth the covenant of the league has been widely in Article X and more clearly in Article XVI, the impression of a general agreement to enforce and co-act. Both of those articles suggest the action of a world-state which never existed and does not now exist. How far the present league is actually removed from functioning as such a state is sufficiently exhibited in its dealings with Lithuania and Poland over Vilna and their common boundary, and with Greece and Italy over Corfu.

10. Experience in the last three years has demonstrated what really are the real difficulties in the way of fulfilling in all parts of the world the large promise of Article X in respect to either its letter or its spirit.

11. No one now expects the league council to try to summon armies and fleets, since it utterly failed to obtain even an international police force for the Vilna district.

12. Each assembly of the league has witnessed vigorous efforts to interpret and modify Article X.

13. Articles X and XVI, in their original forms, have therefore been practically condemned by the principle reduced to something like innocuous desuetude.

14. Another significant development in the constitutional practice of the league is the unwillingness of the league council to intervene in any

Here Is the Essence of the Bok Plan for World Peace

- I. ENTER THE PERMANENT COURT. That the United States adhere to the Permanent Court of International Justice for the reasons and under the conditions stated by Secretary Hughes and President Harding in February, 1923. II. CO-OPERATE WITH THE LEAGUE OF NATIONS, WITHOUT FULL MEMBERSHIP AT PRESENT. That without becoming a member of the league of nations as at present constituted. The United States government should extend its present co-operation with the league and III. PROPOSE PARTICIPATION IN THE WORK OF ITS ASSEMBLY AND COUNCIL, UNDER THE FOLLOWING CONDITIONS AND RESERVATIONS: Safeguarding of Monroe Doctrine.

1. The United States accepts the league of nations as an instrument of mutual counsel, but it will assume no obligation to interfere with political questions of policy or internal administration of any foreign state.

In unifying its efforts with those of other states for the preservation of peace and the promotion of the common welfare, the United States insists upon the safeguarding of the Monroe doctrine and does not abandon its traditional attitude concerning American independence of the old world and does not consent to submit its long-established policy concerning questions regarded by it as purely American to the recommendation or decision of other powers.

No Military or Economic Force. The only kind of compulsion which nations can freely engage to apply to each other in the name of peace is that which arises from conference, from moral judgment, from full publicity, and from the power of public opinion.

The United States will assume no obligations under Article X in its present form, or under Article XVI in its present form in the covenant, or in its amended form as now proposed, unless in any particular case congress has authorized such action.

The United States proposes that Articles X and XVI be either dropped altogether or so amended and changed as to eliminate any suggestion of a general agreement to use coercion for obtaining conformity to the pledges of the covenant.

No Obligations Under Versailles Treaty. The United States will accept no responsibilities under the treaty of Versailles unless in any particular case congress has authorized such action.

League Open to All Nations. The United States government proposes that Article I of the covenant be construed and applied, or, if necessary re-drafted, so that admission to the league shall be assured to any self-governing state that wishes to join and that receives the favorable vote of two-thirds of the assembly.

Development of International Law. As a condition of its participation in the work and councils of the league, the United States asks that the assembly and council consent or obtain authority to begin collaboration for the revision and development of international law, employing for this purpose the aid of a commission of jurists. This commission would be directed to formulate new existing rules of the law of nations, to reconcile divergent opinions, to consider points hitherto inadequately provided for but vital to the maintenance of international justice, and in general to define the social rights and duties of the states. The recommendations of the commission would be presented from time to time, in proper form for consideration, to the assembly as to recommending if not a law-making body.

American controversy, even though all states in the world except three are members of the league. Obviously the league intends to recognize the leadership of the United States in the new world precisely as the United States claims it. This is nothing less than the observance of an unwritten law limiting the power and duties of mankind, as defined in Article XI of the covenant, to questions that seem to threaten the peace of the old world.

15. Isolation of any kind is increasingly impossible, and world organization, already centralized, is no more likely to return to disconnected effort than the United States is likely to revert to the Calhoun theory of states rights and secession.

trict court for Red Willow county will open at McCook January 14, with Judge E. J. Plattsmouth presiding. Judge Eldred has been called to Lincoln and on Monday will begin assisting in clearing up the docket of the supreme court.

TECUMSEH—Johnson county experienced the coldest weather in five years during Friday night and Saturday. The government thermometer at Tecumseh registered 21 degrees below zero Saturday morning. The ground is covered with snow, which is fine for the wheat, the wheat being in excellent condition. Main roads are in good shape.

TECUMSEH—Sparks from a chimney set fire to the roof of St. Andrew Catholic church. A good-sized hole was burned through the roof, the less being protected by insurance. The congregation is building a new \$65,000 church in the same block.

PILLEY—The towns of Pilley, Virginia, Lewiston and Crab Orchard held a joint meeting here to discuss the question of electric lights. Some favored the Barneston plant, while others favored the Blue River Power company at Seward, which furnishes current for the towns of Cortland and Adams in this county. No agreement was reached and the meeting adjourned until a later date.

CALLAWAY—The freezing weather of the last week has been beneficial to the corn that was full of moisture. The freeze dried the most of it out, and there should not be any more trouble of the corn not keeping.

CALLAWAY—Some farmers are carrying considerable livestock in the cornstalks. One farmer reported he lost 10 head in one day of cornstalk poisoning.

COLUMBUS—Fifteen cases were set down for hearing at the jury session for district court for Platte county which will begin here January 14 by Judge Louis Lightner and the docket. Three of the cases are criminal, all dealing with illegal manufacture of liquor.

TABLE ROCK—I. R. Catlett of Pawnee City, deputy grand master of this district, came to Table Rock and installed officers of Table Rock lodge No. 23, I. O. O. F., for the ensuing term. Officers installed are: Frank Goodenkauf, noble grand; John A. H. Marble, vice grand; M. H. Marble, secretary; John Petrasek, treasurer. Mr. Marble has been secretary for the past 20 years.

TATE—Mrs. Alva Bachenberg, 24, who lived on a farm near here, died from injuries received by accidental discharge of a gun in the hands of her nephew of Crab Orchard who was visiting her. Funeral services were held Wednesday afternoon. Interment was in Crab Orchard. She is survived by her husband, a 16-month old son, a father, three brothers and three sisters.

PAWNEE CITY—Rev. J. S. Milburn and wife celebrated their 50th wedding anniversary at the residence of their son here a few days ago. Rev. Mr. Milburn has been a minister for many years for the United Brethren church, his last pastorate being at DeBois.

MCCOOK—Judge C. E. Eldred of McCook, judge of the Fourteenth district, has filed for re-election in the April primary. County Judge A. L. Zick of McCook also filed for re-election.

MCCOOK—The January term of dis-

trict court for Red Willow county will open at McCook January 14, with Judge E. J. Plattsmouth presiding. Judge Eldred has been called to Lincoln and on Monday will begin assisting in clearing up the docket of the supreme court.

Sin Tears Down World Progress, Says Wagner

Harmony With Divine Plan Required, Whether This Be Evolution or Not, Methodist Declares.

"Men are free agents. They can make plans for their own conduct. They can build for themselves little worlds, social, commercial, even material, in a limited way," said Rev. James E. Wagner in his sermon Sunday morning at First Methodist Episcopal church. But where human plans differ from God's plans and aims, and hamper them, it is sin, he declared. "Nothing is sin except as it damages God's plans, God's work," he continued. "What hurts one's self is sin; what hurts others is sin. That is, what damages them, and tends to make them something else than what God planned, is sin. God hates sin because it spoils His work. His plans, even His children. And yet 'Fools make a mock at sin.' Sin is the transgression of the law. That is, sin is human habit, human manners which they differ from God's habits and manners. We are laborers together with God applies to every one, no matter what he is doing, if it helps God get His world done. His people perfected and finished in the pattern He has for them.

"No sane and thoughtful man will laugh at sin. Sin is God's world being torn down; God's children being mutilated and ruined; God's harmonies filled with discords; God's beautiful world being made hugely ugly and harsh.

"There can be no other way to success than to adopt God's plans, and to will to help Him work them out to perfection. Begin in yourself. Help others. Work to make His world fruitful and helpful for His people. 'All sickness and death; all pain and disease; all sorrow and remorse are the progeny of sin. What is this sinister thing called sin? This is God's world. Whether by evolutionary forces or otherwise, He made it. The forces at work on the world to maintain it are simply divine energy. Gravity is God's way of shaping and maintaining the physical universe. Gravity is God at work. It is not God; it is divine energy working in material nature. Light, heat, chemical affinities and reactions are also God at work. Material nature is a product of the divine will, and the forces of material nature are His will at work.

"There are mental forces at work, spiritual forces at work, shaping human society. These forces are also God at work, except as they are other free wills than His own at work.

"So far as we know them every force of material or spiritual nature works by law. That is, they work regularly; you can tell what they will do, how they will operate. If they are to call them God's habits, or God's manners, the Bible says God can be depended upon not to change. That suggests that the laws of nature as we call them, are as unchangeable as God. An unchangeable God makes a safe basis to live in. 'As God's exercise of energy is aimed at definite attainments. So impressed is the student of nature, with the steady progress of God in nature toward some definite end that they call the process evolution. Some of them believe that eliminates God from the picture. As surely as God has made progress toward definite aims in material things, he has made such progress in spiritual things. Despotism, slavery, such oppression of

the poor by the rich as was shown a hundred years ago are no more. God is making progress."

Lincoln, Jan. 6.—Two women favored, Madeline Dohan and Evelyn Spady, both of Omaha, will appear before the board of paroles and pardons January 8 to show cause why they should be released from the penitentiary.

Madeline Dohan is serving a three-year sentence and Evelyn Spady an indeterminate sentence of from one to five years. Both were sentenced in 1922.

J. C. Emerson of Dodge county, a forger serving a sentence of from 1 to 14 years also will appear before the board, filed pending an appeal to the supreme court, fled to Canada where he was apprehended, Samuel Ridge of Saunders county, sentenced to the penitentiary for from 1 to 5 years is on the list of inmates of the penitentiary who are asking for paroles or commutations.

Escaped When Trusty. Ridge has, as "unfavorable" on his record, an escape from the penitentiary while acting as a trusty.

Those who will come before the board follow: Last Leavelle, Douglas, larceny from the penitentiary; Henry Doherty, assault; John Wilson, larceny; forger; Earl Henry, larceny; Earl Sealink; Richard Smith, highway robbery; Earl E. Emerson, Douglas, forger; Samuel Ridge, Saunders, larceny; Floyd Huff, Baker, larceny; Charles P. Farnsworth, York, burglary; Ralph Croft, Clay, larceny; Charles P. Farnsworth, York, burglary; Evelyn Spady, Douglas, forger; Pauline Doherty, Douglas, larceny; Philip Douglas, forger; John Deather, Phelps, burglary; Mike Schultz, Phelps, burglary; Charles Curry, Douglas, larceny and stealing; Walter Walker, Douglas, robbery; Floyd Baker, Douglas, larceny; Ernest Murphy, Hall, burglary; Joe Roper, Hall, larceny; Charles Curry, Douglas, larceny; Charles Sweney, Saline, burglary; Richard Duescher, Cumina, burglary; William Duescher, Cumina, larceny; Mrs. J. J. Faber, Douglas, habitual drunkard; John W. Hall, Douglas, receiving stolen property.

Paris, Jan. 6.—In the senatorial elections today, Premier Poincare was elected. He received 794 votes out of the 810 polled.

In the department of the Marne, Leon Bourgeois, Henri Merlin and M. Monteuilland, radical socialists, were re-elected.

Kearney Hospital to Be Completed by May 1. Kearney, Neb., Jan. 6.—If present construction pace is maintained, the Good Samaritan hospital will be ready for dedication and occupancy not later than May 1.

Plastering will be finished next week. All material required for interior finishing is on the grounds. The building exterior is of rough pressed brick, with Bedford stone finishing. Steel and concrete is used throughout. The building has 60 rooms and is three stories high, the upper floor being given over to three operating rooms, inventory department and laboratories. In addition there is a heating plant and a home for the Franciscan sisters in charge. The hospital when finished, is expected to represent an expenditure of more than \$250,000.
