Hawkeye Coach to Pilot Trinity College Eleven

Announcement of Resignation Comes as Complete Surprise—Had Turned Out Two Winners at Iowa U.

By Associated Press.
Iowa City, Ia., Jan. 11.—Howard H. Jones, coach and athletic director of the University of Iowa, has been released from his contract by the board in control of athletics, that he might accept a position as football coach at Trinity college, Durham, N. C., Secretary R. A. Kuever announced at noon today.
Coach Jones has been at the University of Iowa since 1916. He issued a statement at noon, saying that he found it necessary to ask for a release from his Iowa contract because of climatic conditions and the desirability of coaching on a part-time basis. He plans to remain here until August, when he will leave for Durham.
There is little or no discussion here as to who will succeed Jones as head of athletic affairs at the University of Iowa. The announcement of the resignation came as a complete surprise.

The Iowa five jumped into an early lead, when after five minutes of mulling, Captain Walsh caged a long ringer from past the center of the court. Swanson cut down the lead over the free throw rout, but a side shot by Sheppard put the Iowa safely ahead. The half ended with Council Bluffs on the heavy end of a 10-to-6 count.

The Tech play was ragged throughout, and at one time did the Nebraska champs threaten the Bluffs' lead. Toward the end of the first half the Tech passing machine worked the ball well into Bluffs' territory and against, but an injury to Swede Charonist, all state forward, ended the rally.
Walsh and Sheppard played stellar ball for the winners, while Zusi and Swanson were the Maroon and White luminaries.

The story, has it that Sherrill, who had taken his orthodox upright position on the mark, suddenly lost his balance and lurched forward on his hands. It being too late to rise again, Sherrill started the race from the crouch and found it to be superior to the erect position.
Then along came Al Plaw, a coast guard, with a still more brazen idea. Plaw invented the triple turn. Flanagan, McGrath and Ryan seized on the idea, Ryan finally achieving a mark of 189 feet 1 1/2 inches, which stands today.
In prize fighting the American is supreme because he has invented a strictly American style. He is a smart combination of fighter and boxer, your Yank, specializing particularly in knockout blows. "I didn't know what tennis was before I entered those American tournaments," he said. Lacoste really learned more in two months of playing here than he did in two years abroad. He admits this.
Flattering as those Lacoste's remarks are, there is nothing startling in the news that America has taught the outside world something in athletics. It's been doing that for decades. Britain ruled the tennis courts for years, but America, quick to learn and persistent in the face of repeated defeats, finally mastered. Also it wrought new wrinkles for a game that was supposed to be inelastic to new methods of play.

Gibbons Receives Challenges From Tunney and Wills

St. Paul Battler Is Offered \$50,000 for 15-Round Bout With Negro Boxer in New York.

NEW YORK, Jan. 11.—Enlivened by Tex Rickard's announcement that he had virtually closed negotiations for a return heavyweight championship match between Jack Dempsey and Tommy Gibbons, speculation was aroused today over other features in prospect for the 1934 heavyweight program.
Rickard revealed no further details of his plans for the Dempsey-Gibbons match, terms for which were accepted yesterday, by Eddie Kane, the St. Paul challenger's manager, with the understanding that the battle will be held "somewhere in the metropolitan area," either late in May or early in June.
Jack Kearns, the champion's business mentor, has tentatively agreed to the match, but has refused to discuss final arrangements until his return from a trip to Hot Springs, Ark. Kearns left for the resort this afternoon.

Articles Not Signed.
Neither manager has signed articles, but Rickard indicated he had satisfied both as to terms and that only minor details remained to be worked out. In some quarters it was reported Gibbons had been guaranteed \$100,000 for his end of the proposed sequel to the bout at Shelby, Mont., last July when Gibbons, after staying the 15-round limit with Dempsey, barely obtained expense because of the financial failure of the contest.
Challenges for fights from two other rivals came to Kane and Gibbons today. The first was from Harry Wills, negro heavyweight, on whose behalf Simon Flaherty, Queensboro, A. C., promoter, offered Gibbons \$50,000 for a 15-round match here during the outdoor season. Flaherty, who claims to have Wills signed for the proposed contest, plans to confer with Kane tomorrow. The other challenge was from Gene Tunney, American light-heavyweight champion, whose manager, Billy Gibson, offered to fight with Gibbons for either an indoor or outdoor bout.

Firpo Awaiting Return Campaign.
Word that Firpo is eagerly awaiting his return campaign in this country was brought back today from the Argentine by Juan Homa, representative of Rickard. Firpo's plans are somewhat indefinite, according to Homa, but he is anxious to have one or two stiff bouts before engaging Dempsey again in a fight which probably will come as the climax to the outdoor season in September. Harry Wills and Jack Renault, Canadian heavyweight, are two likely opponents for the wild bull, who expects to go to a barnstorming tour of Canada and this country during the summer.
Rickard also is endeavoring to arrange one or two bouts in which Georges Carpentier will stage an American comeback. The Frenchman has issued a sweeping challenge to American light-heavyweight talent and wants bouts with Tunney, McTigue and Gibbons.
