administration. Hiram Johnson might be able to

stir up something but "wise men" said it didn't seem probable.

McAdoo might make a strong democratic run, but it probably wouldn't make much difference. Now comes the Teapot Dome oil scandal, with the oil reserves of the navy sold to a private concern, and a very unpleasant discussion as to what happened to a certain lump sum of \$100,000.

Unless that is thoroughly cleaned up immediately and by the republicans themselves not waiting for democrats to do it, it may make a big difference in the election of 1924. However, it is not likely that Mr. Coolidge will wait for democrats to do his house-

Yesterday's testimony concerning the Teapot Dome, especially young Mr. Roosevelt's account of nis resigning from the oil company, will interest you and the voters. You will probably hear from President Coolidge and the attorney general within 48 hours. That is not the sort of scandal that can be allowed to simmer too

Myra Cole, 17, went to the mill at 6:30 in the morning, in the little Massachusetts village of Hill's Grove, and got away at 5 in the afternoon. She thought she would try New York.

She went without eating for several days, fell in a faint on the street, and has been sent back to

Hill's Grove.

She will start in again at the mill, go in at 6:30 in the morning, and get out at 5 in the afternoon. But things used to be worse.

More than 80 years ago, the late Albert Brisbane, who wrote for the front page of Horace Greeley's New York Tribune, asked the good men of New England who advo-cated abolition of slavery: "Since you are so much interested in the poor black slaves, why don't you free your own white women that you drive into our mills before daylight and keep there until dark?"

Albert Brisbane, by the way, used to pay Horace Greeley cash for the right to write his opinions on the Tribune's first page. His unworthy son has a better financial arrangement.

This telegram is received from Reno, Nevada:
"Two Chinese will be executed

by lethal gas, Carson City, Nev., February 8. Fearful that horrors may attend this untried experimental means of execution. As an admirer and reader of your articles largely read daily in this munity, would thing you could editorially say.

Reverend Otis L. Linn, Superintendent, Presbyterian Church of

The Society for the Prevention of Cruelty to Animals kills super-fluous cats and dogs in a lethal chamber. The animals don't know what is going to happen, their death is merciful. What can you say about civilized human beings forcing two Chinamen into an air-tight "lethal chamber," turning on deadly gas and killing them? The constitution of the United States forbids cruel and unusual punishment. This method of killing is at least unusual. A good lawyer ought to be able to postpone that execu-

Will the men be tied down or strapped in chairs in the lethal cell? Will they be killed two at

a time or separately?
Will they be left free to dash
their heads in despair against the walls of the deathtrap? Will a Chinese interpreter ex-

plain to them what is going to hap-pen? Will a clergyman mumble prayers through the walls of the cell? It's an interesting experiment in our "civilization."

Dinosaurs used to lay eggs. You knew that. Did you know also that they had gizzards and that scientists find in skeletons of dinosaurs large, finely polished pebbles which, in the dinosaur's gizzard, ground up food, as the hen now grinds her food with gravel in her gizzard?

And did you know that the hen of today is the direct descendant of the dinosaur 70 feet long? The hen would probably object to that statement while Mr. Bryan ob-jects to Darwin's theory. But in both cases the facts are over-

whelming.

A big dinosaur would weigh 200,000 pounds. What Burbank will reverse evolution's process and give us a chicken of that size?

England discusses seriously abolishing the gold standard. The United States having half of all the gold available for money, it wouldn't be bad, from the English viewpoint to select another standard. But for the present, the thing

Men demand something in the way of money that can't be created artificially. Silver might do, but we have that also. Abolish the gold standard and you abolish gold's

Curiously enough, Russia, home of the misty rible, is to go on a gold basis in April. They have discovered that paper won't do.

Britain will soon launch two gigantic new battleships with all the latest improvements, 680 feet long and 106 feet wide. Over here we are junking battleships half finished to oblige England. It is unable to compete with us, financially, in battleship construction, but admirably able to befuddle us diplomatically. It did that at the Washington conference and now tells our baby boy diplomats that we may not even increase the elevation of our guns. That would make them shoot farther (Copright, 1924.)

Grand Island "Dream Girl" Hales Bluffs Youth Before Jury When Wedding Plans Are Disrupted Founder, Dies

Love Letters Read in Court; Girl Cries on Witness Stand. Letters dripping with love and

ffection, written by Robert Wollert, 21, 1118 Fifth avenue, Council Bluffs, to Virginia Neligh, 19, of Grand Island, Neb., were read in open court Monday by County Attorney Frank E. Northrop in Wollert's trial on charges filed by the girl.

Second day of the trial opened Tuesday morning before Judge Earl Peters in Council Bluffs district court. Young Wollert was graduated from a Council Bluffs high school and Miss Neligh has a wide acquaintance

Girl on Stand.

in the city.

Miss Neligh, chief witness for the state, was on the stand all Monday afternoon and she resumed the stand this morning for cross-examination at the hands of W. E. Mitchell, chief counsel for the defense.

Wollert denies relations with the girl, according to the opening statement of his attorney. On the stand Monday Miss Neligh testified that she first met Wol lert in the spring of 1922 when she was visiting at the home of her sis-

ter-in-law, Mrs. Everett Swanson, then living at 1120 Sixth avenue. near the Wollert home. The acquaintance was made through Wollert's sister, Dorothy.

The couple became firm friends. In September, Miss Neligh returned to Grand Island, where her family has lived for 11 years, but the following spring, returned to Council Bluffs, to visit the Swansons. She returned to Grand Island in July, but again visited Council Bluffs in September. It was then that she made known her condition, she said, and Wollert's arrest followed.

Miss Neligh testified that Wollert at first admitted his responsibility, and arrangements for their marriage were going forward until objections on the part of his family caused him to refuse to go ahead with the plans.

She declared that it was understood between them for some time that they were to be married. The letters read in court were written while Miss Neligh was in Grand Island last summer, before her return to Council Bluffs in September, Twelve letters in all were introduced in evidence, but only two of them were

So far, cross-examination has failed to shake the girl's story. After three or four more witnesses are called for the state, the defense will begin the presentation of its case. The case probably will not go to the jury before Thursday.

The court room was crowded yesterday, and today standing room was at a premium. Fully half the crowd was mposed of women.

Miss Neligh cried on the witness stand yesterday under cross-examination, but retained her poise today. Following are extracts from two of the love letters introduced as evi-

CHECK PROTECTION Without a Machine

-- Given to Our Depositors

THEN you pay your household bills C. O. D. packages and all general expenses with Protectu checks, you are sure that the amount of the check is protected from being raised, if by accident your check is lost and may pass into the hands of either an amateur or professional check raiser.

With the Protectu system, you can make your check proof against check raising. This check has a series of numbers lithographed in indelible ink on the end of the check. By a cutting device, the end of the check is cut or torn when the check is made out so that the highest amount indicated on the margain represents the maximum limit of the check.

We have arranged to supply all of our customers with Protectu checks and a Protectu folding pocket cover with cutter attached as shown in illustration. Others who wish to avail themselves of its use may call at our bank and receive them by opening an account in this bank. We do this as a matter of duty following our long established policy of providing our depositors with the best possible service in every department.

An Actual Foot "Print" All factory made shoes are built over perfect foot models . attention is given to making shoes for people whose feet are not 100 per cent perfect . . . that's why so many people suffer from serious foot troubles.

It's Only Luck

if one's foot is perfect and it's still greater luck if both feet follow the lines of what foot science says is the perfect built foot.

If you are one of the thousands of unfortunate people whose feet are not regular, you will never be able to buy shoes READY MADE that will give you foot comfort or shoe economy.

Let J. R. Phipps take the "print" of your foot. He will build your shoes just as nature has decreed they should be built. They can be of any style, shade of color or trim that your fancy desires. The workmanship will surpass that of any factory made shoe; and the wearing qualities will give you double the service.

Men's or Women's Made-to-Measure Shoes
