

Blanche Tiernan Victim of Heart Affair Number 6

All Men False, Says Woman Who Wed Notre Dame Professor in Notorious Paternity Case.

Hansell, Ia., Jan. 29.—Again Blanche Tiernan is back in the house of her father, Rev. Charles Egan of the Methodist church here; again she has been the victim of an affair of her heart. The man whom she sought to marry told her he had deposited a checking account for her in a Belle Plaine bank. And he had done no such thing.

The case against Blanche was dropped when she consented to make good the check and pay the court costs. She left at once for the home of her preacher father. Her arrest on the forgery charge followed a search in several counties and took place Saturday night at Marble Rock, in Floyd county.

Prof. Tiernan, who returned to wife No. 1 after his correspondence courtship and feverish honeymoon with the Iowa girl, is said to be living at Brooklyn, N. Y.

"All men are false," is a conclusion drawn by Blanche from her experience with six of them.

Melting Snow Soaks Gage Wheat Fields

Beatrice, Neb., Jan. 29.—The warm weather of the last few days has caused much of the snow to disappear. As a result the wheat fields are receiving a good soaking. Some of the highways are yet blocked with drifted snow and farmers are unable to reach town with their grain or heavy loads in some localities on account of these conditions.

Adams Farmhouse Burns.

Adams, Neb., Jan. 29.—The brick farm house owned by J. B. Coffman and for years occupied by Mr. and Mrs. John Stroman, was destroyed by fire southwest of Adams with all its contents. The loss will amount to about \$3,000, covered by insurance. The house was built in the early 80s by a man named Seane, who burned the brick near where the building was constructed. Mr. and Mrs. Stroman were enroute to Adams when the fire broke out and its origin is not known.

It has been under way for more than two years, and despite its gigantic size and tremendous cost it has had comparatively little notice.

Perhaps it would have soon faded from the memory of all but its builders and those employed thereon had it not been for the tremendous scandal arising from the leasing of Teapot Dome and other naval oil reserves.

Writ Denied Woman Held in Mate's Death

Boaver City, Neb., Jan. 29.—Woody L. Turner and Mrs. Jack Newkirk of Lenora, Kan., charged with the murder of the woman's husband, whose skeleton was found in Nebraska last May, were denied a writ of habeas corpus in the district court at Norton, Kan., yesterday. It was learned today.

Attorneys for the defendants argued that the state failed to present sufficient evidence in preliminary hearings to establish that a crime had been committed in this state of Kansas. Bond was set at \$10,000.

Turner gave bond, but Mrs. Newkirk was committed to jail.

HARTINGTON — The residence of Dr. Padons of this place, was greatly damaged by a fire, probably caused by a defective fuse. The building was insured for \$5,500 and it is thought that this will cover the loss. A dog which was a pet of the family lost its life in the fire.

When construction of the Sinclair pipe line was begun an effort was made to have it taken through Omaha, but without avail. There is, however, a possibility that a branch line may yet be laid from Kearney to Omaha, and a refinery established in the Nebraska metropolis.

Construction of this pipe line has afforded employment for a small army of men for the last 18 months. Construction camps were scattered all along the right of way, and train load after train load of pipe unloaded in the smaller towns had to be hauled out and distributed. Hundreds of skilled mechanics were employed in the construction of the pumping stations and the installation of the high-powered pumps and in the construction of bungalows.

The daily capacity of the pipe line is estimated at from 100 to 115 tank cars, or some thing like 750,000 gallons every 24 hours.

BEATRICE — The Adams Farmers Elevator company held its annual meeting and declared a dividend of 10 per cent. The report of the secretary showed that the last year had been a profitable one for the concern. Practically all of the old officers were re-elected.

What We Forget Between 15 and 50

Schools teach, and nearly every home applies the rule against coffee and tea for children.

When middle age comes, a great many people remember the facts about the caffeine drug of coffee and tea, and how its regular use may disturb health. Often they have cause to remember what it has done to them.

How much better it would be not to forget—and avoid the penalties!
