

Society Woman Captures Giant Sailfish at Palm Beach—Mrs. Mary Austin Hall of Westbury, L. I., with the giant sailfish she captured in the waters off Palm Beach. The fish is the first of its species to be hooked this season and measures six feet five inches long, weighing 50 pounds.

Tokio's Busiest Corner Shows Signs of New Life—As Tokio is rapidly undergoing its period of reconstruction its busiest streets are showing signs of new life. Photo shows the Ganzo, at Owaricho tram crossing, with temporary buildings in which new year's sales were made.

Pretzel Eating Congressman—Representative William M. Croll of Reading, Pa., who is known as the pretzel eating congressman. He represents a district where the famous pretzels are made by the thousands and he eats a daily lunch consisting in part of his favorite dish. Of course—in the good old days one never ate pretzels without washing 'em down with real beer. But now, oh well.

French Girl Anarchist on Trial—Mlle. Germaine Bertons, on the witness stand in the Paris assizes, where she is on trial for having killed M. Plateau. During the testimony the girl expressed regrets at having killed Plateau instead of Leon Daudet, the royalist leader, who was her intended victim.

Physician Claims a New Cure for Tuberculosis—A new cure for pulmonary tuberculosis, whereby the disease is attacked by the building up of fibrous tissues in the lymphatics of the lungs, has been announced to the medical profession by Dr. Thomas F. Nolan of New York. During 13 years' study, Dr. Nolan claims, he has found that amorphous carbon and calcium salts, in powder form, breathed into the lungs, checks the further advance of the disease. Dr. Nolan is pictured in his office demonstrating the manner in which medicine used in the treatment is administered to patients through an apparatus of his own construction.

Highest Point in United States Photographed for the First Time by Aviators—An exclusive photograph of Mount Whitney, in southern California, the peak of which has just been photographed for the first time; also the intrepid aviators who accomplished the feat. The elevation of the great peak is 14,898 feet. To obtain these photographs it was necessary to reach an altitude of 15,500 feet, at which height the temperature was 10 degrees below zero. The men who made the flight, with the co-operation of the U. S. army air service, reserve corps, Clover Field, Santa Monica, were Lieut. C. C. Moseley, commanding officer; Lieut. George Rice, and two international newsreel cameramen. Due to a strong wind Lieutenant Rice was forced to land in the Mojave desert, after exhausting his supply of gasoline, and was compelled to remain there over night. The following day Lieutenant Moseley flew to his rescue, so that he could continue the flight to Los Angeles, 600 miles, with his photos and the other members of the group. Left to right in the group of aviators are Lieut. George Rice, Lieut. C. C. Moseley, William Stapp and Sanford Greenwald, staff cameramen International Newsreel corporation.

First Woman to Get American Sailing Master's Papers—Mrs. Jennie E. Crocker of Cliffondale, Mass., has just been granted American sailing master's papers. She is the first woman to be granted such papers either for sail or steam on any ocean. Captain Crocker, now in command of the four-masted schooner "Ruth Martin," followed the sea for 19 years, beginning with her honeymoon trip to East Africa with her husband, Capt. Nelson A. Crocker, seen on the left of picture.

Took Pint in Pulpit, Now Saws Wood for a Living—Rev. Paul Harris Drake, Marlboro, Mass., minister who was given notice to quit his parish, the Marlboro Universalist church, on March 1, after he had produced a pint of whisky in the pulpit as evidence that it was being sold freely in the city, has taken to sawing wood. He is shown above making good his statement that he would remain in town and "saw wood, at least."
