Watch the new beauty, the new charm that comes. The new sense of safety and cleanliness. Many clinical tests proved these methods efficient. A new-type tooth paste has been created to apply them daily. The name is Pepsodent.

Wherever you look you now see the results. Learn how to bring them to the people in your home.

Always a film You can feel a film on teeth—a viscous film. No old brushing method effectively combats it. Much of it clings and stays.

Food stains, etc., discolor it, then it forms dingy coats. That is how teeth lose their beauty.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Hardly one in fifty escapes such troubles under old ways of teeth cleaning.

Modern science has found ways to fight that film. One disintegrates

Protect the Enamel Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

I was badly ruptured while lifting a trunk aeveral years ago. Doctors said my only hope of cure was an operation. Trusses did me no good, Finally I got hold of something that quickly and completely cured me, Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 748-K, Marcellus Avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

Leading dentists everywhere began to advise it. Now it has brought a new dental era to millions the world over.
