NEBRASKA BASKETEERS AGAIN HIT WINNING STRIDE; DEFEAT THREE VALLEY TEAMS IN WEEK

Victory of Cornhuskers Over Grinnell, Missouri and Washington One of Features During Play in Missouri Valley Conference Cage Circles.

RANK LATENSOR designs buildings for a living. That ing is good is proved by the court house, the high school, Creighton buildings, move houses, etc.-but friends claim Frank is also equipped with an imagination along with his vasatality as an architect.

Frank tells of a trip down south during the duck season. Friends gave him five shells, a doublebarreled gun and a small club. Then they led him out to a rice field and placed him in a ditch. He wondered at the few shells and the club. He didn't see a duck. The friends refused to tell him more than the fact that he was to be allowed no more than two shots while the birds were flying and that the three extra were for emergency and not to be used. The club they refused to comment on, just telling him not to lose it and to hold his fire until told to

Frank sat tight. Sundown came with it a long line of ducks. They swept towards the hunters a quarter of a mile in length, six deep and tway he was told to fire both barrels.

"Ducks fell in all directions," says Frank, "and then I used the three shells on cripples which were a long ways away. I found that the club was to polish off all the rest of the cripples which were piled five deep in front of me. When we went home that evening after firing five times, the four of use with the one gun and four clubs had 91 ducks."

When asking Frink if the shells vere loaded with old Kaintucky White Mule, be sure that you have a clear street for at least a mile. Frank is an old trackman and cap run like a
