The new association will be known as the Spring Wheat Millers club.

Members of the board indicated his sterne, Grand Island and W. H. These children will complete the course at an early chronological age with superior knowledge and training on account of their superior ability and advanced stages of maturity. For the bright child who is not especially advanced in physical growth and development, Baldwin proposes a quite different permanent organization will be held in program. These children, he believes, should be accelerated horizontally rather than vertically. That is to say, grades. In these special sections they should have an enriched school course with broader reading assign ments, special side excursions and in Osatos Consider vestigations, and elective courses in special fields. These children will complete this enriched course at the average age with greatly enriched information, enriched attitude, and enriched training in approaching the problem of life.
