Mothers You Can Prevent Children From Taking Cold

Next Time They Come in Wet and "Sniffing" Rub This Vapor Salve Over Throat and Chest

When children come in from play with feet wet and blue hands like lumps of ice, you feel sure that they are "in for a cold." But the next time try Vicks. At bedtime rub this vaporizing salve well over throat and chest and cover with a warm flannel cloth. The body heat, releases the ingredients—Menthol, Camphor, Eucalyptus, Juniper Tar, etc.—in the form of vapors, and these vapors go directly to the air passages, stimulating the mucous membrane to repel germ attacks. At the same time Vicks increases the circulation of the blood through the chest region, thus helping to prevent any congestion developing. If applied in time, Vicks will prevent many colds from getting a start and its use doesn't disturb the child's digestion as constant internal dosing is so apt to do.

WOMAN AILING FOR A YEAR

Took Lydia E. Pinkham's Vegetable Compound—Happy Results

Newcastle, Pa.—"I was all run-down and everybody thought I was going into a decline. I had been ailing for a year with pains in my right side so that I could hardly stand on my feet. When I walked I felt as if something was falling. I was not able to do any work and had a nurse most of the time. She spoke to me about Lydia E. Pinkham's Vegetable Compound, and I gave it a fair trial. Some women think one bottle should cure them, but I did not stop at that. I took more and got better and am able ever since to do my own housework. There was a time, when I would complain of not feeling well, that my husband would say, 'Go to the doctor.' But now he will tell me to get a bottle of Lydia E. Pinkham's, and it has always helped me. I have had druggists tell me that they had something better, but they don't tell me that now, for I take no other. I have been taking the Vegetable Compound now for five years. Any woman who cares to call or write, I will be glad to tell her how it helped me."—Mrs. MABEL LIST SHERBURN, 615 Newell Ave., Newcastle, Pa.
