

Convict in Britain Confesses Part in Wall Street Plot

Extradition Proceedings Recommended, Is Report, State Department Reveals Names of All Conspirators.

New York, March 4.—District Attorney Banton announced late today that in an English prison is a man who has confessed to a part in the Wall street explosion of September 16, 1920, in which 30 persons were killed and scores injured. Aside from this confession, Banton said, the State department in Washington has the names of others implicated in the explosion. That portion of the telegram which Banton received from Governor Smith and made public, said: I quote the following telegram from the Department of State, received this morning: "American consul general at London telegraphed March 1 suggesting extradition proceedings be immediately commenced for Ralph Thuermer, alias Louis A. Repell, alias George Darg, alias Walter Sharr."

Details of Plot Known. "Thurmer is also said to have executed an affidavit on March 1, the Department of State's message to Governor Smith continued, 'implicating himself and others in Wall street bomb explosion of September 16, 1920. Thurmer states that all details of plot and names of conspirators are known to him.' Upon learning the contents of Governor Smith's telegram to Banton, criminal court officials disclosed that a young woman bearing a name similar to that of Thurmer was found on a southern California beach a year ago, dead, and that a can calling itself by one of the Thurmer aliases was questioned relative to her death. At the Department of Justice it

Agreement Made for German Bank

New Institution Would Be Depository for Reparations Funds.

Paris, March 4.—The plan agreed upon by the reparations experts for a new German bank of issue is to organize the institution in two departments—a banking division to be located in Berlin and an issue department in a neutral country. The bank would be governed by a board, one-half of whose members would be German and the other half representatives of allied and neutral countries. The president would be a German and the comptroller non-German. If the president and comptroller are in agreement in decisions a majority of the board is to rule, but if the president and comptroller disagree a two-thirds vote will be necessary for decisions. The bank would be the depository of reparations funds which are paid in marks of the new gold currency, so that questions could not be raised of default in payments through reasons of exchange. The capital of the bank probably would be equivalent of \$400,000,000.

Flu and Bobbed Hair Epidemics Raging at York Last Few Weeks

York, Neb., March 4.—Two epidemics have been raging in York for some weeks. One is the usual late winter influenza and the other is the bobbed hair question. "To bob or not to bob?" Both epidemics are attended with fever and chills, the latter with chills of apprehension as to what the family will say, and fever of excitement to have it done before some one else does. Blondes, brunettes, gray-haired and henna—all are sacrificing their crowning glory to the fad of the moment.

At the barber shop the colonel's lady and Julia O'Grady are fraternizing as never before, while mere men are having recourse to safety razor and the family bathroom for the morning shave.

While no market quotations on barber supplies and millinery goods have been received, indications are that there may be a slight rise in the former and a corresponding fall in the latter, unless the bobbed ones buy spring hats to carry as attractive adjuncts, for to spoil a "permanent" by wearing a hat is neither artistic nor economical.

Epidemic of Holdups and Thefts at Fremont

Fremont, Neb., March 4.—An epidemic of holdups and petty thievery in Fremont seems to have baffled police. Nearly every night the last week has seen one or two holdups.

The latest thefts occurred Sunday night when the factory office of the Crystal Refrigerator company was entered and a cash drawer looted of about \$15. On the same evening four boys held up two other youths in regular dime novel fashion. When their efforts were meagerly rewarded, the youthful bandits bullied and harassed their victims with threats of violence.
