

Mother Accused of Slaying Baby

Infant Dead, Mother Not Expected to Live Following Poisoning.

Nebraska City, Neb., March 4.—George White, infant son of Mr. and Mrs. Walter White, died today of poison given him by his mother, Mrs. Walter White, according to local police. Mrs. White fed the baby three bichloride of mercury tablets and then swallowed some of the poison in an endeavor to end her own life. The baby died a few hours later, and Mrs. White's condition this afternoon, according to Chief of Police "Turkey" Cook, is "very doubtful." She is not expected to live. The mother refused to assign a reason for the act, the chief declared, and police have not been able to discover any domestic difficulty which might have prompted the tragedy. The father, according to Chief Cook, is "all broken up over the affair."

Brief in Support of Rail Pass Law Filed

Lincoln, March 4.—N. H. Loomis, Wymer Dressler, J. A. G. Kennedy and E. P. Holmes, representing, respectively, the Union Pacific, the Northwestern, the Missouri Pacific and the Rock Island railroad companies, have filed a brief in the supreme court in support of the law which permits the companies to grant transportation without charge to ministers of the gospel and charity workers. The law recently was declared unconstitutional in a hearing in the district court of Lancaster county and appeal was taken to the higher court. As a legal proposition, the attorneys say that C. A. Sorenson, who brought the suit to test the law's legality, cannot sue because he has no separate interest from others in the effect of the law.

Thieves Enter Two Hay Springs Stores

Hay Spring, Neb., March 4.—Thieves entered Stehl Bros. general merchandise store and the Hay Springs drug store Sunday night. Twenty-five dollars was taken from the general store. The robbers were evidently frightened away when they were in the drug store as the cash register showed signs of being jammed. The sheriff and his deputy are here with bloodhounds trying to capture the thieves. This is the third time the drug store has been robbed within the last two years. It is generally believed that it was done by a resident.

Drinks Switched on Villain in Amateur Play—Gets Epsom Salts

Newcastle, Neb., March 4.—A surprise was handed to Prof. Dean Ehle, who was playing the villain's part in a local talent play, entitled "Little Miss Jack," which was presented here, when Joe Cryan, an Irish wit, gave him epsom salts instead of sugar and water. It confused those taking part and nearly stopped the play. The villain had kidnaped a young woman and was compelling her to clope to Europe when he was double-crossed and given some sleeping powder which he had prepared for the girl. In the play, which was presented two successive nights, sweetened water was used for the sleeping medicine, and the last night of the play the epsom salts were substituted.

NO TROUBLE WHEN BABY CAME

Mrs. Crossan Gives Credit to Lydia E. Pinkham's Vegetable Compound
Mrs. Dakan Also Tells What This Medicine Does

St. Joseph, Missouri.—"I heard so much about Lydia E. Pinkham's Vegetable Compound that I decided to try it as I had had such a hard time with my first child. I took nine bottles of Lydia E. Pinkham's Vegetable Compound and I never felt better in my life than the day my baby girl was born. I will be glad to tell what it will do, to any woman who will let me know her address."
Mrs. ROSA DAKAN, 2227 S. 11th St., St. Joseph, Missouri.

much. I was sick over a year, then a friend told me about Lydia E. Pinkham's Vegetable Compound and I started to pick up as soon as I began taking it. Then I took it again before my first baby was born and I never had a bit of trouble. I recommend it highly."—Mrs. JANE CROSSAN, 612 Pine St., Wilmington, Delaware.

Lydia E. Pinkham's Vegetable Compound has helped many other women just as it has helped Mrs. Dakan, Mrs. Meyer and Mrs. Crossan.

Consider the statements of these women. They give you the benefit of their actual experience with the Vegetable Compound.

A nation wide canvass of women purchasers of the Vegetable Compound reports that 98 out of every 100 have been benefited by its use.

This is a remarkable record and proves the dependability of the medicine for the relief of the troubles women often have.

For weak and run-down conditions so common after child-birth it is well adapted. It strengthens and tones up the system and restores normal health.

The Vegetable Compound contains no harmful drugs or narcotics and can be taken in safety by the nursing mother. For sale by druggists everywhere.
