West Asks Cut in Livestock Rates

30 Per Cent Reduction Requested of I. C. C.—Production Threatened.

Washington, March 14.—Livestock producers west of the Mississippi, as organized in the American National Livestock association and various state and district associations, asked the interstate commerce commission today for a decrease in livestock freight rates amounting to approximately 30 per cent.

Unless some such action is taken, the petition declared, production of livestock in the west will be seriously reduced. It was asked that rates throughout the west, particularly those applying to the packing house market at Chicago, Omaha and other midwest cities, should be reduced to the levels of 1918 and that railroads be forbidden to impose special charges for feeding and watering.

New York Sugar.

New York, March 14.—While not active the raw sugar market was steadier in tone today, although prices were unchanged at 7.03c, duty paid. No sales were reported.

Raw sugar futures were also better in response to the higher ruling abroad and a more optimistic feeling in the spot market. Prices advanced 3 to 6 points early on covering and commission house buying but met increased trade pressure and selling for European account at this level. The market reacted near the close. Final prices were unchanged to 5 points net higher. March closed 5.33c; May, 5.43c; July, 5.46c; September, 5.43c.

Improvement was noted in the demand for refined sugar, but not of large proportions. Prices were unchanged at 8.60c to 8.90c for fine granulated. Refined futures were nominal.

Coffee Futures.

New York, March 14.—An opening advance of 20 to 34 points on steadier Brazilian cables was followed by reactions in the market for coffee futures today. May sold off from 14.20c to 14.00c with the market closing net 23 points higher to 5 points lower. Sales were estimated at 50,000 bags. Closing quotations: March, 14.48c; May, 13.92c; July, 13.40c; September, 12.90c; October, 12.81c; December, 12.63c; March (1925) 12.63c.

Spot coffee, steady. Rio 7's, 16c; Santos, 19¾c @ 20½c.

Omaha Grain

Omaha, March 14.

Spot wheat: There was a general feeling among the trade that the downward trend in futures was about over and as a consequence cash wheat sold ½c higher. While the demand was not brisk, today's receipts and the carryover was fairly well cleaned up. Receipts today were 30 cars.

Corn sold from ½c to 1c lower, following the decline in the futures. Receipts were not burdensome, however, and there was little corn carried over. Receipts were 81 cars.

Oats sold at about unchanged prices to ½c higher, and a good demand. Receipts were 25 cars.

Rye and barley quoted nominally unchanged.

GRATEFUL PARENTS POUR OUT THANKS TO TANLAC

The value of Tanlac as a family medicine and tonic is again very forcefully demonstrated. This time in the home of Mr. and Mrs. Joseph E. Kaake, 2436 Kirby Ave., West, Detroit, Mich., where father and mother and every member of the family have been benefited by the wholesome and helpful ingredients of the famous preparation.

Recently, in speaking for herself and children, Mrs. Kaake said: "For more than a year our three little one—John, age 6, Elwyn, 4, and Margarite, 2—had been so peaked and lifeless that we were seriously worried about them. Their stomachs were upset, appetites poor, the color had left their cheeks, their nights were restless, and during the day they would just mope around, taking no interest in play or anything else.

"They began to eat and sleep better almost from the first dose of Tanlac, and have picked up now until you couldn't find three healthier or more active children in all Detroit. They eat ravenously, the color of health has returned to their cheeks, and they just want to be on the go all the time. I have also taken Tanlac to build me up, and it never seems to fail."

"As to my personal experience with Tanlac," said Mr. Kaake, "I simply can't express in words the great help it gave me. About a year ago I was a victime of boils, actually having fifty-one on me, and was so played out that I couldn't do a bit of work for weeks. My suffering was almost unbearable. I cared little for food, suffering with severe headaches and stomach pains, and got so weak and nervous that I felt discouraged.

"Tanlac corrected my stomach disorders, woke up my appetite, cleansed my blood and toned up my system so that the boils went away, and nothing of the kind has bothered me since. I have gained 28 lbs., and I eat, sleep and feel like a brand-new man. We have given Tanlac a fair trial and found it wonderful, and if any-one doubts our statement they can write personally. We wouldn't think of being without Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Chicago Grain

By Universal Service.

Chicago, March 14.—Liquidation swerved into the corn pit today, prices breaking sharply as wheat developed distinct signs of recuperation. Weakness in the cash situation attracted rather general selling in corn and as the market eased stop-loss orders were uncovered. Wheat prices held fairly steady as a result of the short covering brought out by heavy export sales of North American wheat.

Wheat closed unchanged to ¼c lower; corn was 1¾ to 2c off; oats ⅛c higher to ⅛c lower, and rye ruled ¼c higher to ⅝c lower.

Early selling in wheat which carried prices lower was regarded by close pit observers as the tail-end of the long held eastern lines. The market therefore responded well to the increased buying as the eastern liquidation ebbed. Europe has taken over 4,000,000 bushels wheat the past few days on the declines, largely Manitobas.

Corn showed a heavy tone. This grain for several days resisted pressure admirably well, but support was less in evidence today and the market lost ground. Cash buyers withdrew from the cash market late in the day, and prices broke with premiums unchanged to ⅝c lower at the last. Country selling of this grain continues moderate.

Oats, while irregular, manifested a firm undertone. This was especially appreciated by the bulls in the face of the weakness in corn.

Rye was irregular at the last. Speculators in rye appear to have little confidence in this grain's worth.

Provisions closed slightly lower. Lard was 2½c lower and ribs were unchanged to 2½c lower.

Pit Notes.

It was the general opinion in the wheat trade late today that the market is well evened up as a result of the heavy transactions the past few days. Local elevator interests were credited with buying wheat futures liberally on the weak spots today against sales at Winnipeg in the way of undoing spreads.

The defeat of the Norbeck-Burtness crop diversification bill by the senate led to no little talk in grain circles. The bill by the trade was regarded as the best one proposed from an economic standpoint. Its defeat therefore brought out the question as to whether or not the other less popular bills had any chance at all.

Liverpool wheat futures displayed surprising strength, closing unchanged to ⅝ pence higher. This in view of the sharp slump in our market on the previous day perplexed many. It may have been due, however, to the better feeling in continental exchange. Clearances of wheat from surplus countries this week promise to show a moderate falling off.

The primary movement of wheat was again below last year. Stocks in the northwest showed a good-sized decrease for the week. The export demand for United States surplus grain is slack, it is true, but the domestic demand seems to be able to cope with the daily receipts at this time.

Dry Goods.

New York, March 14.—Cotton goods continued in light demand today with prices barely steady. Yarn spinners are holding firmer for higher prices, while trading in the central markets continues at irregular figures. Raw silk declined still further during the day and is now well under $7 a pound for the best standards. Burlaps were easier and quieter. Some grades of foreign wool held here sold for shipment to Europe. About 1,000,000 pounds were reported to have been in during the last week. Lack of demand here at the prices holders wanted explains the sales. Fine dress goods for fall are having a moderate advance sale.

Chicago Butter.

Chicago, March 14.—Butter was quiet today and barely steady after an initial advance of three-quarters of a cent on top scores, supplies of high scores were very limited but prices remained firm because of a light demand. Trading was confined principally to 89 and 90 scores. Buyers were inclined to hold off on 92 score, awaiting lower prices.

Centralized cars were in light demand at unchanged prices with little new business reported.

Cattle—Receipts 1,500 head. Today's fat cattle trade was slow in spots, but the moderate Friday run cleared at just about steady prices. No early sales were reported above $9.75, but some prime weighty steers were held over $11.00. Stockers and feeders were largely lacking. Top of the market was about steady.

Hogs—Receipts, 16,000 head. Continued liberal supplies together with lower trends at Chicago gave prices a further down swing in this morning's session. Shipper demand was a little broader and movement was under way at a seasonable hour at prices ranging 10@20c lower than yesterday. The packer market was also of a fairly active character at prices mostly 10c lower. Bulk of the sales was at $6.85@7.00 with top for the day $7.00.

Sheep and Lambs—Receipts 2,500 head. Extremely scant supplies coupled with optimistic advices from other points gave trade in the fat lambs market a much better tone this morning and as movement started prices looked slightly stronger than Thursday. No shearing lambs were on offer and the market was nominally steady. Aged sheep were also quotably steady on scant supplies.

Quotations on sheep and lambs: Fat lambs, good to choice, $15.00@15.75; fat lambs, fair to good, $13.75@15.00; clipped lambs, $13.10@13.25; shearing lambs, $15.00@15.50; wethers, $7.75@10.50; yearlings, $9.00@12.50; fat ewes, light, $8.00@10.35; fat ewes, heavy, $6.00@7.75.

Financial News

Total stock sales, 866,100 shares.

Twenty industrials averaged 98.95, net gain, .49.

High 1924, 101.24, low, 94.88.

Twenty railroads averaged 84.28, net gain .12.

High, 1924, 85.90; low, 82.74.

New York, March 14.—Stock prices showed a strong tone on an increased turnover in the early part of today's market, but became unsettled towards the close on week-end profit taking and a resumption of short selling. Announcement that the house would vote on the soldiers bonus bill next Tuesday and the probability of its passage were reported to have inspired the late attacks of bear traders.

Speculative interest was divided largely between the high priced specialties and the medium priced rails, particularly those in which favorable dividend developments are believed to be pending. American Can and Baldwin were pushed up a point or more during the morning, but they yielded with the rest of the list in the afternoon. Can closing unchanged at 115⅝, and Baldwin showing a net gain of ½ at 123⅛, United States Steel closed at 103, off ⅛, and Studebaker was unchanged at 101⅝.

Kresge, making its first appearance in some time, jumped 20 points to 335, a record top on one sale of 10 shares. General Electric touched 225⅝, its highest price since 1902 and an extreme gain of seven points buying being influenced by reports of a capital readjustment which would be favorable to stockholders. National Lead closed nearly five points higher at 140.

Wilson Packing preferred broke 19 points to 45, a new low, in response to the passing of the dividend. United Cigar Stores broke 15½ points to 190 on one sale. Market street railway prior preferred also established a new low at 44¼, off 3¾, on the passing of the dividend. Late selling was directed principally against the tire stocks. Kelly Springfield being hammered down more than 3 points to 20⅛ the lowest this year.

Copper improved on the French confirmation of reports that Premier Poincare had informed American bankers, prior to the granting of the recent $100,000,000 loan, that the Dawes report would prove acceptable to France. American Smelting led the advance, moving up more than two points to 63¾, buying of this issue also being influenced by rumore of an extra dividend in April. Oils were irregular, renewed selling breaking out in the Pan-American issues. Recent advances in crude prices have resulted in increased activity of the shares of some of the smaller companies, such as Superior which have contracted for their output at prevailing market prices and of companies like Marland and Texas company that have large quantities in storage.

In the rail group Wabash preferred A touched 46¾, the highest since 1917, on reports of an early resumption of payments. Southern Railway held close to yesterdays final prices despite a large volume of profit taking. Chicago & Eastern Illinois preferred, also expected to benefit by early dividend action, touched a new 1924 top at 48⅝. Chesapeake & Ohio closed nearly two points higher at 74⅝.

Call money was unchanged at 4 per cent. An easier tone developed in the time money market, banks lowering their asking price to 4⅝ and brokers bidding 4½, some 30-day loans being arranged at the lower figure. Commercial paper held steady at 4⅝ per cent.

Trading in the foreign exchanges was irregular. Reconversion of sterling credits into French franc credits sent demand sterling down more than a cent to around $4.28, while French francs made further recovery by crossing 4.70 cents.

New York Bonds

New York March 14.—First indications that the deterrent effects of March income tax payments on bond trading were being removed came today in a revival of speculative interest, which stimulated activity and higher prices throughout the list. Responding to the improvement outlook for railroads, indicated by the inauguration of Southern Railway common dividends, numerous second grade rail issues moved higher. A renewed demand for the St. Paul 4s of 1925 brought a recovery of 1½ points and active inquiry for Seaboard, New Haven and Frisco obligations took these bonds into higher grounds.

In the face of the omission of the preferred dividend by Wilson & Co., the bond issues moved higher, the convertible 6s gaining more than 2 points and the first 6s a point. Abandonment of the company's plan to issue prior preference stock apparently was construed as a favorable development for bondholders. Foreign bonds held firm today as trading interest in them quieted down.

With tax payments out of the way, an increased volume of new financing is expected to appear in the market next week. Prospects include several public utility and industrial issues.

Wool Market Irregular.

Boston, March 14.—The Commercial Bulletin will say tomorrow:

A rather irregular market has been in evidence this week at the eastern seaboard. Demand has been more or less spotty and prices have not been uniform although no marked weakness is in evidence. The market for goods continues to drag for the most part, although it is the common belief that the season will develop a fair business, as it progresses, despite more or less unsettled business and political conditions.

"Foreign markets continue very firm and London is expected to open on Tuesday with merinos steady and crossbreds about 10 per cent above the last series close, that if on a parity with the current market. The primary markets are all closing strong. Because of the higher level of prices abroad, some exports of wool have been arranged during the last week or two for a fair weight of wool.

"Contracting has closed up a bit this week but some further purchases are reported generally in the range of 40 to 42 cents for both medium and fine territories.

Mohair is firm on fair demand.

The Commercial Bulletin will publish the following wool quotations tomorrow:

Boston Wool.

Boston, March 14.—While the volume of tradiing in general on the local wool market is unchanged, a little more inquiry seemed to be developing for some of the foreign lines. South American Montevideos 2s and 3s, in particular, have been the object of more interest from the trade, but very few sales have been consummatd thuse far. Prices in all lines of the Montevideo wool are very strong. Recent information from Buenos Aires states that the exports of wool to this country are less than one-third compared with the same period last year.

New York Bonds.

New York, March 14.—Speculative interest in the bond market centered today in domestic issues, which were active and higher in the early dealings. Substantial recovery was made by Wilson & Co. liens upon the announcement that plans of the management to increase the capital had been abandoned, and by Virginia-Carolina obligations. Wilson convertible 6s moved up 2¼ points and the company's first 6s. Virginia-Carolina 7s, General Electric debenture 5s and Punta Alegre Sugar 7s gained from 1 to 1½ points. Foreign bonds held firm in quiet trading.

New York Cotton.

New York, March 14.—The general cotton market today closed steady at net advances of 3 to 20 points.
