ADVERTISEMENT NOW YOU CAN END RHEUMATIC PAINS German Chemistry Achieves Another Triumph.

Nothing is so important in medical practice as the conquest and elimination of pain. For many years German scientists have specialized on this subject, producing many of the most important medical discoveries of the age, among which are Aspirin for the relief of headaches and Novocain for painless dentistry. Now, from the same source comes Buhler Oil for Rheumatic pain, a scientific formula that penetrates the skin and tissues rapidly, soothing the pain almost instantly, and in a few minutes producing that comfortable feeling that means so much to sufferers. Knowing that rheumatic pains must have definite cause, these German chemists persevered in their experiments, finally arriving at the conclusion that toxic poisoning from clogged intestines was transmitted through the blood to joints and muscles causing inflammation. After that it was a problem of finding the right combination of materials to counteract and quickly and painlessly remove the cause. Buhler Oil has been used by an immense number of people with almost universal success. Many stubborn, long-standing cases have responded quickly to this remarkable lubricant. So astonishing have been the results and so universal the praise accorded Buhler Oil by users that local druggists are glad to endorse it and will cheerfully refund your money if you are not thoroughly satisfied. Buhler Oil is for sale in this city by Sherman & McConnell, Union Drug & Mercantile Co., Barney Dugan Drug Co., United-Local Drug Co., Saratoga Drug Co., and Haines Drug Co.
