Worker for Leonard Wood **Tells Oil Body Heard Report General Turned Down** Nomination.

By Associated Press.

Washington, March 19 .- The atmos phere at the Chicago republican convention in 1920 was surcharged with stories of "oil deals," the oil committee was told today by Tiffin Gilmore, deputy secretary of the state of Ohio, who was at Chicago as a Wood supporter.

Rumors of Oil

Deals Thick at

One story was, Gilmore said, that cil operators had proposed to throw delegate support to Major General Wood if they were permitted to name the secretary of the interior. He declared he knew nothing about it "first hand," but that it was common talk that a "deal had been consummated between oil operators and the possible nominee.'

"Who were the operators?" he was asked.

"I do not know, except that they were big operators in the western district."

'Who made the proposition?" Proposition to Wood.

"I do not know, I could not say. The proposition was made to General Wood.'

In a conversation he had after the convention with Carmi Thompson, an Ohio republican leader, who was the nomines of his party for governor in 1922, Gilmore said there was some discussion of a land claim Thompson was interested in. 'What land did you refer to when

THE OMAHA BEE: THURSDAY, MARCH 20, 1924.

Eulogy of Nebraska was delivered by J. L. Webster before the Omaha Rotary club Wednesday noon "Nebraska, midway between the Atlantic and Pacific oceans, is the heart of the United States," he said. "It is a land that is rich in the

comance of its early explorers and in its pioneer history. Its prairies have the immensity of seas, and its horizons mingle with the sky. Its golden coloring of abundant ripening harvests in summer time gives to its lands a sunburst of splendor.

Grandeur of Wonderland. "Its mysterious changes through the ancient geological periods, and its silence, during the primeval ages until it reached, in the progress of development, its present prosperity and wealth, the magnificence of its cities and the sterling qualities of its citizen ship, when considered in unison of thought, present the interesting grandeur of a wonderland. "When Nebraska was admitted into

the union in 1867, it contributed 77,-000 square miles of land, from former uncultivated prairies, into the union of states, soon to become a garden of luxurious vegetation, dower ed with a 'golden wealth of sunshine and opalescent sky,' and the future home of a vast population. Look Into Future.

"To see and to know Nebraska as it is, and to form a fair conception of its prospective future, it is essential that we look at it from the standpoint of contrast. We must lift up ompare former conditions with the present. We must look into the future not into a dreamland of fancy, but basing our judgments upon sub-stantial facts and upon reasonable

industries and in population.

irregularities? Then don't delay! Physicians agree that a vast number of the worst cases of kidney trouble are the result of germ diseases. In every infectious disease the system is alive with poisonous germs and bacteria. The kidneys are often overwhelmed with the rush of the new work and fall behind in filtering the blood. Too often the real trouble is lost sight of until some dangerous kidney ailment sets in. Don't risk neglect! Help your weakened kidneys with a stimulant diuretic. Use Doan's Pills. Doan's have helped thousands. Home folks gratefully tell their experiences. Ask your neighbor!

MRS. J. H. SPARKS, 1807 Webster St., says: "My kidneys were weak and I suffered with continual backaches, I couldn't half do my housework. I felt so run down and miserable. The action of my kidneys was irregular, and my feet, limbs and hands swelled. I had headaches most of the time. I used Doan's Pills and the aches and pains left my back. The swelling went down and my kidneys acted regularly."
