

West in Grip of Blizzard, High Winds

Snow Accompanied by Sudden Drop in Temperature in Omaha—Cyclone Sweeps Oklahoma.

(Continued From Page One.)
dropping to around freezing. The cold wave today was spreading generally throughout the southwest.

Five persons were injured on a farm near Noble, Okla., about 25 miles south of here. Several farm homes and barns were destroyed, but the people ran into storm cellars and dugouts to escape the storm.

Helping Needy.

Several civic organizations at Shawnee were at work today to aid families of victims and to provide comfort to the injured.

The twister, after leaving Shawnee, went to Prague, where several buildings were laid low. A schoolhouse near that town was demolished, the children and teacher being saved when they fled to a cellar. Many buildings were blown down between Shawnee and Prague.

Frederick and Hollister said small buildings were damaged, but there were no casualties reported.

Mr. and Mrs. W. H. Appleby, living near this city, were reported injured and all livestock on their farm killed by the heavy wind. E. A. Waldron and two small children were injured when their home was destroyed.

Omaha was the center, Saturday morning of a storm that swept from the northwest, bringing rain and snow and drops in temperature.

The barometer here at 4 a. m., was 27.68, an extraordinarily low reading, according to Meteorologist Robins.

Forecast is "fair tonight and Sunday; colder tonight."

From the mild weather of Friday, the storm swept the thermometer down to 33 at 7 Saturday morning and six more degrees to 27 at 8.

The northwest wind attained a speed of 23 miles an hour at 9:30 at Omaha, Springfield, Mo., and St. Louis had 44-mile winds. Cheyenne, Wyo., had a 48-mile gale.

Rain turning to snow was the report from all over Wyoming, North and South Dakota, Nebraska and Iowa with rain to the east.

Bleed Storm in Dakota

The Northwestern Bell Telephone company reported 270 poles down in South Dakota near Sioux Falls, where sleet had formed on the wires to a thickness of an inch and half.

All the phone company's emergency equipment was placed in readiness for trouble in Nebraska and Iowa, the dropping temperature together with the rain and snow making the outlook serious.

54-Degree Drop.

Kearney reported a drop in temperature from 74 at 5 Friday afternoon to 20 at 7 Saturday morning, with rain, sleet and snow. Lincoln reported a temperature of 29 at 7 Saturday.

Delayed trains and wire trouble were reported from St. Paul, Minn. An interurban bus, lost in snow drifts went over a bank on a curve near Waverly and the passengers were badly shaken up.

Trains to Omaha were reported on time.

The local weather bureau reports from many stations were delayed. Lowest temperatures reported were at Winnipeg and Prince Albert, Canada, 4 above zero.

Minnesota Cut Off.

The storm path was across South Dakota, particularly the southeastern portion, across southern Minnesota and northern Iowa. The latest reports indicate that the storm also swept across southern Wisconsin.

Lines between Chicago and Minneapolis are out of service. Considerable damage resulted to telephone lines north of Mason City, Ia., early Saturday morning. Two hundred poles are down north of Mason City and communication with Minneapolis is cut off. Also, eight miles of poles are down south of Mason City. Later reports indicate that lines northeast of Waterloo are going out.

Repair crews are being rushed from Minneapolis to the Sioux Falls district, and Iowa telephone repairmen are moving to the northern and northwestern parts of the state. Restoration of service with isolated towns is expected by this afternoon.
