While prices showed little change for the week, distinct improvement in the market's undertone resulted from the ready absorption of new bond issues, which were offered in the largest volume since the flotation of the \$150,000,000 usus reported for a \$5,000,000 issue of Western Electric company 5 per cent debentures and a \$10,000,000 issue of Cleveliand Union Terminal bonds. Institutional demands for short term securities into which to divert excess funds brought out several actractive note issues which were quickly subscribed and which offered market competition, with previously listed investments of a similar nature.
