

Amundsen Will Cross North Pole

Inspects Aluminum Plane Being Built for Trip by Italians.

Rome, April 2.—Capt. Raoul Amundsen and his American pilot, Lieutenant Davidson, arrived here today from Pisa and will have a meeting with Premier Mussolini tomorrow.

They have just inspected the Marina de Pisa, the aluminum seaplane being constructed by Italians, and with which they hope to cross the North pole next July. An Italian naval officer will accompany them.

Amundsen declares that he is anxious to discover a new rapid airway from Europe to America.

The plane being built in Italy has two motors with 600 horsepower, and will be able of resisting low temperatures. It is valued at 2,000,000 lire.

The route taken from here will be from Pisa to Zurich, to Tegel, Bergen, Tromsø, Spitzbergen, over the North pole to Alaska.

Amundsen hopes to fly from Spitzbergen to the pole in six hours and make the trip from the pole to Alaska in 15 hours.

A huge waterspout, which attained a height of 800 feet, recently rose out of the sea within two miles off the coast of England.

A CLEAR COMPLEXION

Ruddy Cheeks — Sparkling Eyes — Most Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, namely: Dr. Edwards' Olive Tablets.

You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, swollen look, red eyes, pimples, colic tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit, 15c and 30c.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times the terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one could be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allen's, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed the Beaton Drug Co. to disseminate Allen's with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

NERVOUS, RUN-DOWN MOTHERS

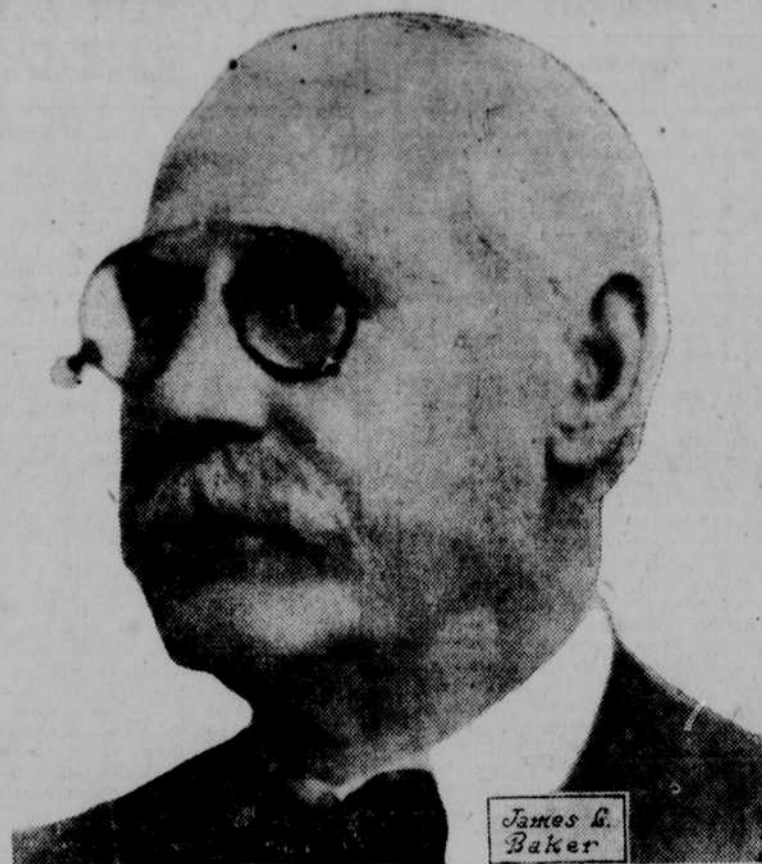

Worn Out Caring for Children and Housework—See how Lydia E. Pinkham's Vegetable Compound Helps

Indianapolis, Indiana.—"I was in a very nervous and run-down condition while nursing my baby, and hearing some talk of Lydia E. Pinkham's Vegetable Compound, I began taking it. From the second bottle I noticed a big improvement, and I am still taking it. I am not a bit nervous now, and feel like a different person. It is a great medicine for any one in a nervous, run-down condition and I would be glad to give any one advice about taking it. I think there is no better medicine and give you permission to publish this letter."—Mrs. J. E. Smith, 541 W. Norwood St., Indianapolis, Ind.

The important thing about Lydia E. Pinkham's Vegetable Compound is that it does help women suffering from the ailments common to their sex.

If you are nervous and run-down and have pains in your lower parts and in your back, remember that the Vegetable Compound has relieved other women having the same symptoms. For sale by druggists everywhere.

Men Who Are Making Omaha

James G. Baker

... was a magnificent planting hot day and were served with a soothing drink, you can depend upon it that the ice with which that drink was cooled was made by a Baker ice machine.

Or, if it were in Havana, or Rio de Janeiro, or Cairo, Egypt, or anywhere on the face of the globe where the climate is hot, you would have the same experience.

Baker ice machinery goes everywhere. It is used in large cities in this and other countries by enterprising dealers for cooling refrigerators, cases and the like. In fact, wherever anything is to be cooled off the Baker man is on the job.

Meet Mr. James Lincoln Baker, whose enterprise has made it possible to get a cool drink anywhere on earth. He was born on Cape Cod, Massachusetts, and in 1871, when 17,

he went to Boston to learn something about business instead of going to college, as he father wanted him to do. Later he went back to the Cape Cod town and took further training in a bank.

Then Nebraska called him. Buying a lumber yard at Scribner, he went along in the lumber, fuel and grain business for a time, in partnership with one of the Crowells. Then the Crowell-Baker company was formed, and while it was going good Mr. Baker sought new fields for his activity and came to Omaha.

One world-wide used product is the child of his early effort in this city, for he was concerned with making the compound that is now known as Old Dutch Cleanser. He went into the gypsum and wall plaster business, the furniture business, the harness business, and in all of these he prospered.

While he still was at the head of the Baker Furniture company, he came into touch with John Larsen, a young inventor, who interested him in the manufacture of ice-making machinery. The Baker-Larsen company soon was shipping machinery all over the world, but Larsen liked the aviation business better, and sold out his interest that he might be a builder of airships. J. L. Baker stayed on. The Baker Ice Machine

... has a magnificent plant out at Fifteenth and Evans streets. Please do not think all of Mr. Baker's energy has been employed in developing business enterprises. He has spent a lot of time in making men, and a volume might be written of the kindly acts he has done and the timely help he has given others. He is one boss who never has labor troubles, for he treats his men like men, pays them top wages or a little better, and they are for him to a man. His friends are as loyal, also, for he has literally "grappled them to his heart with hooks of steel."

The monks first started making Munich beer in the 12th century.

Lumber Tariff Inquiry Ordered

Commission Leaves for Pacific Northwest to Investigate Conditions.

Washington, April 2.—The tariff commission has ordered another inquiry into tariff rate applications on imports of cedar, fir, spruce and western hemlock after previously dismissing all proceedings for modification of the duties. Proceedings in the case were thrown out when the commission decided it had no jurisdiction under flexible provisions of the tariff act, only to have that view upset by an opinion of Attorney General Daugherty.

Investigators for the commission will leave tomorrow for the Pacific northwest, to institute inquiries into production costs and to gather other data bearing on the differences in prices on logs grown in the United States and in Canada, against which a provisional duty of \$1 a thousand board feet is applicable under certain conditions.

Commission members declined today to discuss the action resulting in the reopening of the case except to say that the present inquiry will cover all ground which would have been considered under the first application for rate modification.

Commission members declined today to discuss the action resulting in the reopening of the case except to say that the present inquiry will cover all ground which would have been considered under the first application for rate modification.
