# GEORGE W. NORRIS

At the coming primary, next Tuesday, an important question will be answered. Do the eastern politicians and moneyed interests, or do the people of Nebraska nominate a candidate for United States senator?

Look at the character of the present campaign, and you will see what interest is trying to defeat Norris. Money is being poured out like water. Wherever possible, newspapers are being subsidized. Professional politicians are being lined up. Financial and political interests are frantically in the fight.

They want to get Norris out of the Senate because he cannot be bribed or bossed. They want to get him off the chairmanship of the great agricultural committee and put a pliant tool in his place.

Are the people of Nebraska awake to the dangers of this conspiracy? Are they prepared to march to the polls next Tuesday and register their protest against it?

No more honest and earnest man than George Norris ever sat in the United States Senate. No man more clearly understands the problems that confront the agricultural west. He should be re-nominated by an overwhelming majority.

This is no time for the people to listen to the palaverings of western candidates with eastern minds and selfish eastern capitalistic interests. The contest between Norris and the foes of the people is the most vital now being waged in the entire west. The whole country is waiting on the result.

Do your duty—every voting member of the family. Go early to the polls. When you stand up for Norris, you stand up for Nebraska.
