## You can secure almost any good Bridge or Junior style in this Sale of Lamps

at a most substantial saving

One hundred combinations are in the sale. The pictures show bridge and junior types with gilded antique metal and turned walnut bases, fitted with silk shades, lined, interlined and overlaid with georgette. Unlighted these shades harmonize perfectly with modern draperies and furnishings; lighted they effuse hospitality and warmth. The choice of colors is wide, trimmings are rich and varied, but in no instance is there any attempt at providing pretentious elaborations at the expense of real quality and good workmanship. All lamps are weighted and piped.
