Come Vacationing to SEATTLE

Babies' Paradise

Healthiest City in the World

Now there's a typical Seattle baby. You will see thousands like him in Seattle—young huskies with the rich bloom of health in their cheeks, joy and content in their eyes, rolls of fat and muscle on their wonderful little bodies. No digestive troubles annoy them; no hot days or nights threaten their lives; or severe winters to keep them shut in.

No city in the world of equal or larger population has as low an average annual death rate. The adult and infant mortality rate in Seattle is less than half that of various prominent American cities.

Seattle's remarkable health record is due to absence of extremes of heat or cold, cyclones, hurricanes, earthquakes, severe electrical storms—a climate soothing to nervous troubles and one that invites you out of doors the year round; an abundance of pure water; an exceptional milk supply; perfect natural drainage; cheap and plentiful vegetables and green foods the year round; no slum districts; and a scenic wonderland which keeps people in the open.

Make this vacation a "Charmed Land" vacation. Know the joys and beauties—mental and physical.
