SOVIET BEHIND SENATE INQUIRY

Red Charge Is Made by Daugherty

Brookhart and Wheeler Reflect Influence of 'Friends in Moscow,' Says Ousted Cabinet Officer.

Treason Stalks, He Says

"It may fairly be inferred that one step in this direction was to capture, by deceit and design, as many members of the senate of the United States as possible and to spread throughout Washington city and in the cloakrooms of congress a poison gas as deadly as that which sapped and destroyed brave soldiers in the late war."

"Wanted Nothing Hid."

Declaring that had there been any indication that the committee investigation of the Department of Justice would be conducted with fairness and along proper lines, Mr. Daugherty said it had been his intention "to make public the private business transactions of my life."

The Omaha Western league Buffaloes turned on the Oklahoma City Indians Wednesday in the second game at Oklahoma City and by a ninth-inning rally defeated the Redskins, 10 to 9.

William Tilden, national tennis champion, refused to meet with the Lawn Tennis association officials to talk over his amateur standing in the association.

Tex Rickard announced Wednesday that he had signed Floyd Johnson and Rogers for a bout.

The Boston Braves rallied in the ninth inning Wednesday and nose the Philadelphia Nationals out of victory.

University of Nebraska track athletes are showing up well in the tryouts for places on the teams that will compete in the Drake relay at Des Moines Friday and Saturday.

Bossie Account Audit Confirms \$2,200 Shortage

Check of Drivers' Stubs Reveals 225 Tons of Munny Coal Unaccounted for.

Shortage of Claude Bossie, former Omaha city clerk, amounting to \$2,200 in the municipal coal department was confirmed in the official report of Charles E. Stenicka, special auditor employed by the finance department to the city council Wednesday.

The official figures show no account of the sale of 225 tons of Kentu coal which Bossie advertised for sale. There is a deficiency of \$210 for a car of coal which was sold freight.

No \$9-Ton Records. There are no records of any being sold for \$9 a ton.

Accounts show that 5,049 tons of coal were received not including per cent shrinkage allowed. Sales accounts show only 4,864 tons sold.

Check was made through amounts paid drivers, who received \$1.40 per ton for delivering the coal. These records showed the drivers were paid for delivering more coal than the sales accounts were sold.

Butler's Shortage Explained. Stenicka also submitted a report on the coal department, when it was under the jurisdiction of Communist D. E. Butler. Butler allowed 10 per cent for shrinkage, Stenicka which was not too much, because of the quality of coal which was handled.

Butler's accounts show 14 tons of coal not accounted for.

HAWAII ROCKED BY EARTHQUAKES

Hilo, T. H., April 23.—Earthquakes of severity and considerable duration are continuing in the Puna district. The tracks of the Hawaii Consolidated railway at Kapoho were tossed about like waves and the service had to be suspended.

R. H. Finch, assistant volcanologist at the observatory, reports progressive cracking along the rift line eastward from Kilauea volcano and the possibility of a flow of lava either at Puna or in the ocean off Puna.

There are continuous quakes at Kapoho where the residents spent four days of terror, the windows and floors rattling continually. The ground is war in hollow places.

The Hilo seismograph recorded 30 small tremors last night, corresponding to the tremors which preceded the Mokuopuli crater flow last year.

Mr. Walz, born in Owatonna, Minn., is 65 years old. Forty-five years ago he was a cowboy in Arizona and New Mexico, and experienced the difficulties of raising cattle at a period when guerrilla warfare was in progress in southern New Mexico.

When the California cattle and ranch of 1,000,000 acres, of which he had charge, were sold to some Englishmen, Mr. Walz moved to California with his wife and two sons, and engaged in the insurance business. Ear trouble resulted in his complete deafness, but undaunted, he sold out his business on the west coast and went to New York, where he originated and founded his present concern.

Mr. Walz now has five sons, all aiding him in his business. "We are just like six brothers," he said, smiling happily. "I play tennis and golf with them, even though I am 65. It was my ambition to found businesses in which my sons could be associated with me, and I have succeeded."

Jury Declares Harry Thaw Sane; "They Can't Fool Me," Says Evelyn

Jury Has No Definite Plans for Future; Seeks to Shun Accustomed Limelight.

Philadelphia, Pa., April 23.—Harry Thaw, jubilant over a jury's declaring him sane, said today he has no definite plans for the future but does hope "to drop out of limelight."

Thaw has been in the public eye since he shot and killed Stanford E. Redburn at the Madison Square room in 18 years ago.

Thaw's freedom, despite the verdict of the jury, is not yet a reality. Pittsburgh millionaire, by direction of Judge Monaghan, was confined in the custody of the Pennsylvania hospital for mental and nervous diseases under the original order of commitment. This means, a said today, that Thaw must remain at the institution final judgment of the Gump case.

Thaw, who has requested the "four days' time in which to motion and reason for a new trial," said that the Philadelphia verdict was sane proved again the sanity of his millions. "There was

nothing in this case," she said. "I was not called at all. What else could the jury do? They can't fool me. I've had too many deals of this kind. This has happened before. But I'm just beginning my legal battle."

"We won't have to wait long for another scandal like the Gump case," she said. "Thaw is far worse now than ever before. Take his action when he broke down in court today for instance. One look was sufficient. I know him."

A world's record for speed in a small messenger airplane was established here today when Lt. Matthew Egan, air service, piloted one of the machines at 110 miles an hour over a triangular course. The race course is 45 miles long, three times around a 15-mile triangle.

Section Hand Has Violin Made 288 Years Ago

Shenandoah, Ia., April 23.—A violin which lacks only 12 years of being 300 years old is owned by Mike Shafer, Washburn section hand. "Within the body of the violin can be seen, by using a flashlight, the label of the maker, the crude old-fashioned lettering being additional proof of antiquity. The label reads 'Jacobus Paola Mabini Brescia 1656.'"

The history of the violin is unknown. Shafer got it from a brother-in-law, who secured it in Missouri. The violin is treasured, not for its age, but because of its sweet, pure tones.

New York, April 23.—Astonishment at the abundance of wine offered him in this country was expressed by Gen. Emile Taufflieb, French senator of Alsace, as he sat today on the Paris for Havre.
