

Russians Are Misunderstood

So Says E. T. Waterbury in Speech to Concord Club.

"The majority of people in Russia are not Bolsheviks," declared E. T. Waterbury, general manager of Armour & Co. plant, in speaking before the Concord club Thursday noon at the Athletic club. Mr. Waterbury was in Russia before the world war, during the war and after the war. "The Russians are misunderstood," he said. "I am favorably impressed by the aristocrats, middle class and the peasants. They will work out their own salvation. There is a great forest supply, some of the largest oil wells in the world and abundant crops. All economic conditions are favorable. Next to the Americans, Mr. Waterbury declared that he thought more of the Russians as a nation than any other. Before the war only 5 per cent of the immigrants who came from Russia were real Russians, the remainder being Poles, Lithuanians and other races.

Cozad Church Attendance
Cozad, Neb., April 24.—On Easter Sunday there were 1,433 people in the four Sunday schools of this city. Those population is 1,200. On Thursday, preceding Easter, the four pastors of the city had a half-page advertisement in the local papers asking that there should be a record at attendance. Sunday was a fine day and the churches were crowded to the very limit.

Deaf Woman Hears Music on Columbus Radio Set

Columbus, Neb., April 24.—(By AP) Marvelous stories have been printed concerning the experience of deaf persons who "listen in" over the radio that a local family of enthusiasts determined to test the statement by inviting a woman born deaf in a wireless concert. Miss Martha Schuchardt, who never hears in her life had heard pleasing tone combinations, burst into a happy smile after she placed the head phones to her ears, and that she was really "hearing" the music was evidenced by the fact that she beat time to the rhythm of the composition being played.

Shipperdentistry, Through Specialization, Gives the Patient Absolute Protection

Through Specialization, Shipperdentistry, from every standpoint, affords the patient absolute protection:
Protection of Health through Good Dentistry, which is attainable only by specialization in each and every phase of the dental profession.
Protection against pain by the use of TOOTH-NUM... an exclusive feature of Shipperdentistry, which positively eliminates pain and leaves no ill after-effects.
Protection against disappointment or misunderstanding of price by thorough examinations and acquainting the patient, in advance, with the exact cost of the work that is required.

—and, another measure of protection of which all Shipperdentists approve, and appreciate: at the completion of the work, the patient makes the decision; he or she is the sole judge and must be satisfied, always. And through the years, this policy, fostered by integrity and supported by specialization, has established the name Shipperdentistry as the synonym of Good Dentistry.
