

Tammany Hall to Select Murphy Successor Today

Hearst, Said to Oppose Naming of James A. Foley, Denies He Has Candidate.

New York, May 7.—The executive committee of Tammany Hall will meet tomorrow to choose a leader to succeed the late Charles F. Murphy.

Decision to call the meeting is said to have been caused in part by the widening gap between Mayor Hylan and the Wigwam.

The desire to present a solid front to reinforce Governor Smith's presidential boom was another.

Members of the dominant group are reported to have hope that Surrogate James A. Foley, son-in-law of Mr. Murphy, will consent to take the leadership.

William Randolph Hearst, who has been reported to have inspired Mayor Hylan's statement opposing Foley's selection, denies that he has any candidate. He made this statement:

"I do not know anything about the internal policies of Tammany Hall. I certainly have no candidate for the leadership of Tammany."

"I have no interest in his selection except that, as a citizen of New York, I hope that this powerful political organization will secure an able and honest leader who will conduct it in harmony with modern progressive principles."

"Mayor Hylan has shown what such honest, progressive leadership means for the success of the party in New York city and for the standing of the New York democracy throughout the country."

"Tammany need not be a political stench in the nostril of the nation. It could be a great and admirable influence for genuine democracy."

"I don't know who the leader should be; I have no suggestion to make, but I hope the selection will be a wise one."

BURLINGTON LINE REVENUE JUMPS

Chicago, May 7.—A total increase of 3.55 per cent in revenues, compared with a transportation cost increase of .33 per cent was shown in the annual report of the Chicago, Burlington & Quincy Railroad company for 1923, made public today.

The transportation cost ratio of 77.01 per cent was the lowest since 1917. Net income was \$19,290,529, compared with \$20,281,487 for 1922.

Railway operating revenues totaled \$171,270,660, compared with \$164,916,470 for 1922, while railway operating expenses aggregated \$134,290,378 against \$138,717,703 for 1922. After payment of \$17,083,700 in dividends, and \$294,250 for sinking funds, an income balance of \$1,917,384 was transferred to profit and loss against \$2,833,537 in 1922.

Increased freight business in 1923 was attributed to increased tonnage of bituminous coal and manufactured products. Passenger and express revenues also increased. The automobile is steadily cutting into local passenger business, but the long hauls are increasing, the report said.

EVELYN NESBIT ABANDONS FIGHT

Atlantic City, N. J., May 7.—Evelyn Nesbit, divorced wife of Harry K. Thaw, declared today she no longer intends to fight Thaw's efforts to obtain his freedom from a Philadelphia asylum to which the slayer of Stanford White has been confined.

"My decision is final," she said. "I have written to William A. Gray, my attorney, to take no action to prevent Harry's regaining his liberty."

Argument on Gray's appeal from a jury decision calling Thaw sane was to have been heard Monday before Judge John Monaghan in Philadelphia.

Wife Kidnaps Baby to Fool Her Husband

Stolen Infant Is Restored to Arms of Frantic Mother After Search by Police.

Philadelphia, Pa., May 7.—Ten-week-old Corinne Modell, stolen Monday as she lay asleep in her coach in front of her home, was found by the police today in the house of a woman who admitted she took the infant to fool her husband.

The woman, Mrs. Mary De Marco, and her husband, Gorman De Marco, were arrested. The house where the child was found is a mile from the Modell home.

Mrs. De Marco told the police that she brought the baby home on Monday and that she had told her husband it was born that day while he was at work. Her husband, she said, believed her story. The police, however, were skeptical and immediately placed handcuffs on the husband and took him to a police station with his wife.

Mrs. Harry Modell gave a shriek when informed over the telephone that her baby had been recovered and fainted in the arms of a brother-in-law. Shortly afterward her husband rushed into their home with the child in his arms and handed it over to the mother.

"Oh, my darling, my darling; thank God I have you back," Mrs. Modell cried.

Abandoned Auto Found.

Deputy Sheriff Frank Owens found an abandoned automobile bearing the name of John Auca in front of 1810 South Seventh street, Tuesday night.

Coolidge Quoted Correctly on Ford Bid, Miller Says

Washington, May 7.—The senate agricultural committee today heard James Martin Miller's version of the telegram recently produced before the committee in which he quoted President Coolidge as "trying to deliver Shoals" to Ford.

Miller declared the president was correctly quoted in the telegram. Despite White House denials and subsequent repudiations of the story by Ford's secretary, he said he "correctly and truthfully" stated the facts in his message to Ford's secretary after his talk with the president.

A letter from Ford stating he would not be represented further before the committee was read by Senator Norris. It stated that Ford objected to the efforts of Norris "to reflect upon the integrity of the president in connection with the Muscle Shoals offer."

Senator Norris told the committee he intended to continue his efforts to save the valuable resources of the country for the people, adding that Ford's letter was "an attempt to shift the attention of the public from the real issue."

The question of ending the hearings on the Ford offer will be determined by the committee tomorrow.
