H. G. Wells for Birth Control. Intelligent Bootleggers. Style Dress for Working

H. G. Wells demands legalization of birth control and widest publicity of birth control knowledge. It's true that every rich woman, from her doctor, can get the knowlit is true that the individual woman, not distant lawmakers, should, in strict justice, be allowed to decide there are a good many "buts" in-

Take the case of Mr. Jules C. Rabiner, when he felt that making money honestly was too slow, he had sufficient intelligence to follow the established American plan and keep away from petty larceny. He went to Wall street, started a bucket shop, stole \$800,000 from his victims. Justice with all solemnity, sentenced him to jail "for six months to three years." That was three months ago. The wise Mr. Rabiner is now out of jail, and back in Wall street, on parole. When he went to prison he remarked to his "riends that he wouldn't stay long. Let us all hope that Mr. Rabiner will hereafter be a model of all the virtues and appreciate the quality of judicial mercy that sends an ignorant half-brutish man to jail for
