France Dislikes Taxes.  
U. S. Jungles.  
Science Beats Civilization.  
To Keep Delegates Pure.  
By ARTHUR BRISBANE

The French franc dropped badly yesterday, and it's not surprising. The French election shows that France is worried about things in general. That worries owners of French currency. But be careful how you sell francs short. Those that tried it have had a painful experience recently.

Poincaré's downfall surprises those that do not know the French people. After he had done almost everything the French wanted, including forceful treatment of the Germans in the occupation of the Ruhr, the French put Poincaré out. The French do not like direct taxation.

French peasants especially object to being taxed. They are willing to buy bonds of their country, to their last franc. But they don't understand the francs being taken away from them, especially after they won the war.

There are jungles—of crime—and jungle savages in this republic, as there are in Africa. And you will find in the United States crime—jungle brutality greater, more cold-blooded and cruel than among barbarous people.

Six bandits, after stealing \$1,500 in cash and knocking three persons senseless with the butts of their pistols, locked them with four others in a refrigerator, leaving them to freeze to death. They would all have frozen had not a mere accident saved them.

In Chicago a man held up on the street, with only a few cents in his pocket, was beaten into insensibility and almost killed by the highwayman "to teach him better next time."

The American criminal is particularly cruel and the American mob particularly brutal.

Near the news of criminal brutality you read about the starting of a gigantic generator in one of the Edison electric light plants. With one finger M. S. Sloan, president of the company, yesterday threw a switch and started generating 50,000 kilowatts of electricity, equal to 67,000-horsepower.

Science has progressed more rapidly than civilization. A race of men that with one finger can start a machine to producing 67,000-horsepower is unable with all its laws, police, parliaments, judges

## On the screen at your convenience

Ciné-Kodak for making motion pictures and the Kodascope for showing them comprise the Eastman outfit that, for the first time, brings cinematography within easy reach of the amateur.

And daily demonstrations on the screen at this store make it pleasantly possible to see for yourself.

Eastman Kodak Co.

and prisons to do away with war, or with brutal crime between wars. There is good news for the wives, mothers, daughters, sisters and aunts of delegates that will soon come to the democratic convention in New York. Commissioner Enright, head of the city's police, will investigate, warn and purify all large resorts, if any, existing in the biggest city in the world.

Some of the delegates perhaps will object, but that is the program.

One of the greatest demonstrations ever witnessed in the United States was seen yesterday, when 1,000,000 persons lined 12 miles of Chicago's streets, greeting Cardinal Mundelein, archbishop of Chicago, in his progress from the railway station to the Holy Name cathedral. Deviating from the custom usually followed in this country, Cardinal Mundelein passed through the streets, to the great satisfaction of the crowd, wearing the full ceremonial costume of a cardinal, including the great cloak of cardinal red, with red cape, trimmed with gold lace, and a wide-brimmed hat of red and gold. It is reported, by onlookers, that the enthusiasm of the crowd was truly extraordinary.

Cholera becomes dangerous in India—696 cases, 391 deaths in one week at Mysore. Natives tell you that health measures are foolish, that it is ridiculous not to allow religious bathing in the sacred Ganges, swarming with disease germs and decorated with floating corpses.

Here, in the United States, there is one rather serious outbreak of smallpox. Some of the natives of America tell you between outbreaks that vaccination is "all nonsense." But when smallpox comes they run to be vaccinated.

In Japan, as in France, the party in power is defeated, both elections coming together in regions far apart. Premier Kiyoura of Japan, like Poincaré of France, must make room for another.

In Germany policemen and so-called "reds" are shot down in riotous mobs at work pass through the streets, active.

Everybody sympathizes with foreign countries in their troubles. But everybody out of the idiot asylum ought to know that this is a good time for the United States, and its amateur statesmen, to stay at home, attend to their own business and let foreign countries attend to theirs—incidentally depending upon United States courts and not wandering off into any world court.

Landis and Quinn to Attend Dakota Legion Convention

Hot Springs, S. D., May 13.—Drawn by former Judge Kenesaw Mountain Landis and National Commander John S. Quinn of the American Legion, buddies in the organization of former service men and members of the American Legion auxiliary are expected to make up the largest crowd ever assembled in Hot Springs at the departmental conventions here July 30 and 31.

Fruit Unharmed by Frosts. Beatrice, Neb., May 13.—Horticulturists report that the fruit in this section escaped the recent frosts and cold weather. Early planted potatoes, beans and other garden truck suffered considerable damage. Warm weather and rain are needed here for crops.

Farmer Found Dead. Hubbell, Neb., May 13.—John Carpenter, 67, who had lived in this vicinity for the past 40 years, was found dead at the farm home, where he lived alone, three miles beyond the Kansas state line, Monday. He had not been seen about the premises since last Thursday. Carpenter's di-

## EAGLE, NEB., PAPER PRAISES MAUPIN

The Eagle (Neb.) Beacon has a word of praise for the literary product of Will M. Maupin, veteran Nebraska writer, member of The Omaha Bee staff.

In the May 8 issue of the Eagle is the following: "Arthur Brisbane may be the highest paid editorial writer in the world, and he does grind out some pretty good stuff, but old Bill Maupin can write rings around him when it comes to putting up stuff of real heart interest."

36 tablespoonsful to the pint

That is the way to think of Heinz Vinegar. A pint will make the dressing for 36 salads!

What matters the slightly higher price per bottle when this difference in price per salad is a fraction of a cent!

Is that too much to pay for the delicious tang and flavor that Heinz Vinegar imparts to the good things upon which it is used?

Next time try Heinz Vinegar. The difference between it and ordinary vinegar may mean the difference between a successful salad and a spoiled one.

# HEINZ PURE Vinegars

## Are You a Tired Out Housewife?

Many people do not realize that the most exhausting of all work is housework and the care of children. Many a woman who should be in the prime of life finds her strength gone, her nerves unstrung and is weak, worn out and run down with pale, thin, watery blood from the strain of housework.

In such cases, what you need is something to put more iron into your blood.

Nuxated Iron contains iron like the iron in spinach, lentils and apples, and like the iron in your blood. You will be astonished at how much better you feel often in even a few days.

Try taking Nuxated Iron for two weeks, and you will see color come back to your lips and cheeks. You will not be so easily upset by trifles, and best of all, you will find that you have new strength and energy and endurance for your daily tasks. At all good drug stores.

**Natural's Remedy**  
Chips off the Old Block  
One-third the regular dose. Made of same ingredients, then candy coated. For children and adults.
