

Carnal Mind Is Father of Evil; God Divine Good

Lecturer Explains Reasons for Precepts of Christian Science and Their Origin at Local Church.

Judge Frederick C. Hill, Boston, Saturday night addressed a large audience at First Church Christ Science on Christian Science healing. He explained the reasons for the beliefs of the church and the origin of these beliefs.

His address in part follows: "Christian Science is, as its name implies, essentially Christian and its practice being predicated upon absolute law, it brings healing from sickness and deliverance from sin. This being the case, Christian Science, as a great religious movement must be based upon a revelation of the teachings and practical truths presented in the Bible. Lest there be confusion in the thought of those who have never investigated this subject, I assure you at the outset that Christian Scientists use for their study and in all their church services one Bible authority, that of the King James version of the Old and the New Testaments.

"Christian Science as it is presented to you and to me came through the discovery by Mary Baker Eddy of the operation of absolute, fixed spiritual law. In an impartial investigation of Christian Science it is desirable, in fact quite essential to know somewhat of its Discoverer and Founder. I feel quite safe in assuming that your early experience in the investigation of this subject is similar to yours. My first impulse was to inquire, 'Who is Mrs. Eddy?' 'What did she discover and found?' The answer to these questions is simple and helpful.

Divine Law Heals.
"Mrs. Eddy was a devout and lovable, New England woman, deeply interested in the Bible. Early in childhood she displayed a keen perception of the underlying truths contained in Bible narratives. Through her research and study of the Bible she noted that perfect trust and confidence in God's laws were followed by permanent and fixed results and that blessing and healing were part and parcel of His infinite plan. Hence Mrs. Eddy discovered and proved the divine laws of Life, Truth and Love. After this discovery she subjected it to proof and being convinced of the healing and redeeming ministrations of these spiritual laws she determined to give to the world the benefit of her observation and discovery. Accordingly she wrote and published 'Science and Health With Key to the Scriptures' and designated it the Christian Science textbook. The reading and study of this book, in connection with the Bible, has brought health and

healing to many and is indeed a key to God's inspired Word—the Bible. "Regardless of conflicting reports, I make this positive and emphatic declaration of fact—Mary Baker Eddy is the discoverer and founder of Christian Science and has been so decreed by our courts. "It will early be discovered that Christian Science emphasizes the final destruction of sin and the healing of bodily infirmity. Some of our religious friends have offered the criticism that Christian Scientists make too much of the healing element. At no time does the human mind part with cherished beliefs or relinquish traditional claims until proof, clear and positive, has been presented showing that there is a better way. It is not surprising, therefore, that after material methods have failed and Christian Science treatment has restored health and happiness to the individual very much should be thought and made of the healing element. In fact, all Christian Science practice is healing in character whether it is applied to bodily afflictions or to other forms of discord.

"Mrs. Eddy has discovered and applied the laws of Spirit. The false beliefs regarding these laws or the willful rejection of them in no way affect their intrinsic value and they remain ever available to all who will understand and apply them according to their Principle. Christian Science is applying the red letters 'Counterfeit' to the false conclusions and the false beliefs masquerading as realities in the human mind. It is unfolding to the receptive thought and bringing into human experience positive proof that 'There is no life, truth, intelligence or substance in matter' and that 'Spirit is the real and eternal' (Science and Health, page 468). This reality is the basic, fundamental state of being. The practice of Christian Science is destroying the unreal, counterfeit values of human beliefs and is bringing into view the basic, scientific facts of spiritual truth. It is furnishing undeniable proof that

nte design. Neither do they charge Him with human delinquencies and as a matter of course they do not petition Him to remedy or correct that which He has not created. They do pray to Him from the standpoint of petition Him to remedy or correct that all things are possible to Him; and such prayer is answered by driving out of human consciousness the diseased, erroneous images of thought and letting in the light of God's man created in His image and likeness."

Psychic Research Will Solve Death Mystery, Is Claim

Head of American Theosophical Society to Give Two Lectures in Omaha Coming Week.

"Americans are thinking today as never before about things physical and spiritual," said L. W. Rogers, national president of the American Theosophical society, who will lecture Tuesday and Wednesday evening at New Theosophical hall, 201 Arthur building at 8:15 p. m. "Harvard university has established a chair for psychic research," he continued, "and the world's most eminent scientists are investigating the phenomena which indicate that human consciousness survives the death of the physical body. "It is only a question of time when they will succeed in placing a scientific foundation beneath the hope of immortality. The experiments of the late Sir William Crookes, whose scientific discoveries opened the way for the wonders of the X-ray and of course, do not agree with those who adopt the theory that there is something wrong with matter and therefore something material must be administered to restore harmonious condition.

"They are healing sickness, sorrow and dire distress in the most effectual way, in fact they are doing it in the only way that holds out a ray of hope or promise for the final deliverance from these evils. Christian Scientists, of course, do not agree with those who adopt the theory that there is something wrong with matter and therefore something material must be administered to restore harmonious condition.

"A Christian Science treatment is a conscientious effort based upon a sincere desire to bring into human experience 'the enduring, the good, and the true' so that by the renewing of the mind it can be proved what is that 'perfect will of God.' In other words, the reformation of the sinner and the healing of the sick is but proof that divine Principle, God, is present and available, and is, as we have heretofore seen Immanuel or God with us. This happy and desirable mental condition is established through the medium of prayer. There is great lack of understanding among Christian people as to what constitutes true prayer.

Prayer Sincere Desired.
"This lack of absolute knowledge is the procuring cause of much error and accounts for the erroneous belief that Christian Scientists do not pray. Such belief has no foundation in fact. They pray continually and understandingly and the fruits of their prayers are rich blessings to humanity. It must be remembered, however, that in their prayers they do not supplicate God to conform His will to theirs or to change His in-
