Mothers!! Apply Common Sense

THIS is the era of the prevention of disease and sensible people do not wait until sickness has actually come before remedying the trouble. The crowded hospitals everywhere are sad examples of the results of neglect. Be especially watchful of children. Restlessness, lack of normal appetite and feverishness usually indicate constipation. Stop it that instant with a spoonful of Dr. Caldwell's Syrup Pepsin and you will have prevented real sickness. Mrs. Ida Williamson of 1637 Pine St., Long Beach, Cal. and Mrs. Lou Brawley of Self, Ark., never have illness in the family because of their prompt use of Syrup Pepsin.

A Great Family Laxative It may be difficult to decide just what medicine to use out of the many that are offered, but it would not be if you knew the facts. There are laxatives, cathartics, purgatives and physics, and they vary in their reaction on the system. Naturally, the stronger the medicine the more it shocks the Menticelle

the more it shocks the system, so wise parents never give anything but a laxative to children. Dr. Caldwell's Syrup Pepsin is a mild laxa-tive, a vegetable com-pound of Egyptian senna with pepsin and desirable aromatics, and so appreciated that it is now the largest selling preparation of its kind in the world, over 10 million bottles being used annually. The formula is on every package.

Three Rules of Health Purchase a bottle of Syrup Pepsin at a drug store and always keep one in the family medicine chest. Give it to anyone from infant to grandparent, for it is safe, and the cost is less than a cent a dose. You can keep a family healthy with just this simple medicine. Give it for constipation, torpid liver, indigestion, biliousness, headaches, colds and other evidence of bowel obstruction. iousness, headaches, colds and other evidence of bowel obstruction. Dr. Caldwell, who was a practicing physician for 47 years and who originated this formula, had three rules of health that he found very effective among his patients and which you can follow with great benefit: Keep the head cool, the feet warm, and the bowels open.
