

Arrest of Slayer of Ex-Omahian at Chicago Expected

Woman Roomer in House of Victim Questioned by Police Following Hammer Killing.

Chicago, May 21.—Police today declared they expected to arrest a suspect in the murder of John R. Burks, former resident of Beatrice, Neb., within a few hours. The statement was made following an interview of an hour and a half between Mrs. Margaret Marks and Lieutenant of Police Jensen, Mrs. Marx, a roomer in the Burks rooming house, who has been held for investigation, sent for the lieutenant early today and requested the talk. She was believed to have named the slayer.

Burks was found strangled and beaten to death in his rooming house early yesterday following the visit of a narcotic salesman. Burks was known to have been a drug addict, according to police.

Mrs. Marks and her husband, a chauffeur, were locked up and held for questioning when it was learned they had quarreled and that Marks had gone to Burks to have a black eye treated.

Mrs. Marks previously had said she and her husband found Burks' body after hearing means coming from his room. Later she said two other roomers, Earl Phillips and Lowell Fredericks, were present when the body was found.

Stains found on Marks' shirt and which he declared to be iodine, splashed on him when he wrenched a bottle of the fluid his wife was attempting to drink, from her hands, were said today to have been analyzed as human blood.

John Burks, ex-Omahian slain yesterday in Chicago, was arrested in Omaha four or five years ago by Chief of Detectives Van Deusen and Detective Benny Danbaum. There are no records of the charge against him.

Burks ordered a bottle of milk in his cell and when it was brought to him broke it and hacked two jagged holes in his throat in a fruitless effort to commit suicide.

Following the affair an order was issued against bottles, tins or any articles which might make a serviceable suicide weapon being left in the possession of prisoners. The order is still in strict effect.
