## Why You Need Iron-To Make You Strong and "Brainy" and Put the Power Into Your Blood To Overcome Disease Germs

The food you eat contains carbon.
When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen in your magnified.

Imposerished blood they give off tremain in your blood, the carbon and oxygen there is nothing to unite with the carbon in your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you cat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is
