NEBRASKA IS INDEED BLESSED WITH GOOD FORTUNE

EVERYTHING of nature's best has been given to Nebraska and Nebraskans are making the most of their rich inheritance. Nearly every acre of land in the state yields a profit agriculturally and industrially. Thousands of miles of roads and railway wind through Nebraska's rich and beautiful country and through the hundreds of thriving cities and towns. You see activity everywhere, because nearly every community in Nebraska is a direct participant in some phase of industry. Nebraska is indeed fortunate in that it does not depend on one crop or one industry for its permanent income and prosperity. Because of Nebraska's diversified industries and diversified farming, local bankers will tell you that today money is plentiful in Nebraska and borrowers scarce.

Are You Getting Your Share of the Business in Nebraska

In Nebraska there is a per capita wealth of \$4004. And that Nebraska's wealth is evenly divided is indicated by the number of automobiles, compared to the number of families. There are 230,045 automobiles to 303,456 families in the state—almost one to every family. In 1923 Nebraska increased its income by millions of dollars. In 1923 Nebraska harvested its second largest corn crop which was valued at nearly \$40,000,000 more than the 1922 corn crop. The per capita value of all agricultural and livestock products in Nebraska for 1923 was approximately \$400 while for the United States it was \$125. These facts indicate in a small way the sales opportunities that exist in Nebraska. Are you getting your share of this business?
