

Water Rate Will Be Raised If City Withholds Funds

General Manager Leisen Urges Council to Continue Appropriation for District Upkeep.

Omaha water rates will be raised 20 percent unless the city council continues to make an appropriation to the water board, according to T. A. Leisen, general manager of the Metropolitan Utilities district, who spoke to the city council Monday morning. Randall Brown, member of the utility board, also spoke in favor of an appropriation. Up until now, the city has always paid what was called "hydrant rentals." A case is now before supreme court in which it is trying to be shown that the city government has no right to do this. Arguing that it would be better to have a general levy for the upkeep of the water company than an increase in rates, the two men told of the expenses of maintaining the hydrants and the company in general, showing why such an appropriation was necessary. The resolution will come up before the council Tuesday. After Commissioner Koutsky had made a statement to the effect that he was glad to see Leisen come up and tell the facts concerning the case, Dan Butler said, "I'm glad to see that Koutsky admits that the trouble was only political enmity between Howell and himself."

Corn "Fired" by Heat and Wilting in Fields

Columbus, Neb., June 23.—Columbus and the surrounding rural territory shown everywhere "fried" by the heat and wilting in the fields, in consequence of too much moisture and standing pools of water with sun's rays at 90 degrees and over at midday. On the other hand, the fourth planting of corn has been begun by many farmers in the lowland districts. Oats, wheat and other small grains are showing signs of rust. The only crops that at present are promising are alfalfa, hay and clover.

Chris C. Coffey Ill.

Nebraska City, Neb., June 23.—Chris C. Coffey, oldest employe on the Wyandotte division of the Burlington railway, and widely known in railway circles in Nebraska, is seriously ill and confined to his home. Coffey has been ticket agent here for the past 40 years.

Children make constipation a habit—relieve them with Kellogg's Bran

Children punish themselves terribly by ignoring nature's demands. They bring constipation upon themselves. They invite the many other diseases which can be traced to constipation. Immediate steps should be taken to rid them and keep them free from this disease. It takes ALL bran to be 100 per cent effective. That's what Kellogg's is—ALL bran. That is why doctors everywhere recommend Kellogg's. That is why Kellogg's Bran carries a money-back guarantee to bring permanent relief, if eaten regularly, in the most chronic cases of constipation. That is why Kellogg's Bran, cooked and crumbled, has brought glowing testimonials to thousands—because it is ALL bran. No matter how long one has suf-

Dangerous Radio Aerials Inspected

Following the death of Henry Le Roy Nelson while handling a dangerous radio aerial, a reporter and photographer for The Omaha Bee made a tour of investigation with City Electrician I. Lovett to look over some of the dangerous aerials. "I have pleaded with radio fans to remove their dangerous aerials, and I regret to state, that unless they do, there may be more deaths and property damage by fire," said Lovett. Lovett said he would insist that all owners of radio sets obtain permits from the city electrician's department as provided by the city ordinance. This will enable the city to make a thorough investigation of the aerials. In every instance where dangerous aerials were found, Lovett notified the owners to remove the hazard immediately.

Danger Tremendous. "These radio fans don't realize how near death they are," said Lovett. "I will furnish all aid necessary in taking down dangerous aerials. Many would imperil their lives by even trying to take them down." One of the first houses visited was at 5114 Burt street. This aerial runs from a tower on the roof of the house to a large tower on the garage. The structure on the garage is built between two service wires leading from the pole to the house. The photograph shows two single wire aerials and one four-wire aerial fastened to the garage tower.

In case of failure of either of the single wire aerials to hold they would fall and come in contact with 110-volt service wires, with the result that one or both of the radio sets attached would be burned up. In case repairs to the tower structure are needed it would be necessary to go up the structure between the service wires, which might result in a shock and serious injury. **Insulator on Tower.** Apparently, realizing the hazard of the electric light wire rubbing against the structure the owner had one wire fastened to the tower with a porcelain insulator. During a recent storm the wire was pulled loose. Constant rubbing of this wire against the structure on the guy wires might, under certain conditions, set fire to the garage. In case of a serious wind storm the guy wires, which are fastened to the roof by small nails, would be pulled loose and the entire aerial structure pulled over on the electric light wires and the radio sets would be burned up, aerial wires would be charged with high volts of electricity, and any person unfamiliar with electricity who happened to come in contact with them would be seriously injured and possibly killed.

500 Delegates Expected at Kearney C. E. Meeting

Kearney, Neb., June 21.—Five hundred delegates from all over the state are expected in Kearney next week, from June 24 to 29, inclusive, for a Christian Endeavor convention. Four churches are preparing to receive the visitors here and other churches having young people's organizations have been invited to take part. Entertainment of delegates is planned on the Harvard style. Dean Ashcroft of York, president of the Christian Endeavor of the state, will be present and give a series of addresses. R. R. Herbert of Omaha, executive secretary, also will be present. Richard Pinnell of the Christian church, here, is in charge of all preparations for the convention.

Car Ditched; Woman Hurt.

Madison, June 23.—Mrs. G. Schwartz, living on a farm south-west of this place, was severely injured, when the car driven by her husband was forced into the ditch to avoid hitting another car at the intersection of the Meridian and Upland highways, one mile west of town. She suffered one gash about five inches long under her chin, another gash in her cheek and another over one eye, caused by the broken windshield.

Ditch Planned by Farmers.

Columbus, Neb., June 23.—Digging of a ditch two and a half miles long cut out a six-mile bend in Looking Glass creek and thereby to free a score of farms from the ravages of flood waters. It is the plan now being made by farmers at Monroe, Neb. The result may be the formation of a drainage ditch, which would save more than 1,000 acres of land every year from being swept by floods.

WOAW Program

- Tuesday, June 24, 8 P. M.—Dinner program by Lions Club of Pittsburgh, Pa.
- 8:30 P. M.—Real program from vocal class of Walter H. Graham.

- Baritone Solo—Selected. Mr. Graham.
- Soprano Solo—"Christmases" Burleigh Margaret Coffman, Regina Franklin, accompanist.

Federal Agents Quit by Request; No Reason Given

American Legion Post Asked to Fipd Explanation for Dismissal of Two Emerys.

Mystery surrounds resignations by request of Jack Emery, former Gage county sheriff, and his son, R. J. Emery, world war veteran, from the Iowa-Nebraska department of the bureau of investigation under E. W. Byrne. Friends of the two Emerys have learned in the last few days that the original report that they had resigned voluntarily was erroneous and have requested Senator R. B. Howell and Congressman M. O. McLaughlin to call upon J. E. Hoover, chief of the Washington bureau, and ask the reason for the resignations. These same friends have reported the affair to the Omaha post, American Legion. Byrne, chief of the bureau in Omaha, refused to answer questions today. He stated that if he did know why the resignations were requested he would not tell because under rules of the department, all publicity must be handled from the Washington headquarters. "No one in particular has taken their places," Byrne said. "When we need extra men we notify the department and they send them from any point where extra men are available."

Gasoline Tax Dismissed at York Good Roads Meet

York, Neb., June 23.—The good roads meeting of this district was attended by about 35 men. It was held under the auspices of the Nebraska Good Roads' association in the district courtroom. Mr. Beals, state field secretary of the association, and Mr. Putney of the Greizer and Putney company, Lincoln, addressed the meeting on the subject of a gasoline tax.

War Waged on Coyotes.

Broken Bow, Neb., June 23.—June is a record month for coyote scalps in this county. Since May 24 539 scalps have been brought in to the county clerk's office, 427 of them coming in during the first 16 days of this month. They are coming from all parts of the county, which shows that the people of every section are making a determined effort to rid themselves of this pest.

Youth Who Carried Iron Rivet in Lung

This is Vincent Mosites, 17, who for two years carried an iron rivet in his right lung. Last week he was injured while pole vaulting. He contracted pneumonia. His physician thought he had a fractured rib and an X-ray showed the rivet he had inhaled accidentally.

The rivet was extracted by Dr. E. M. Kully without use of knife or loss of blood. The cross in the diagram marks where the rivet was lodged behind the fifth rib.

Children Cry From Heat in Hovel; Widow Helpless; Cool Milk Needed

A hovel built of old boards and tin, banked with earth. One room and a closet. A mother huddled there with three small children. Husband dead recently. That is just one of the cases that came recently to the attention of The Omaha Bee's Free Milk and Ice fund. The sun beat mercilessly down on that poor little home. And the babies cried and the poor mother cried because she was helpless in the grip of circumstances. A Visiting Nurse found them. Milk and ice are to be provided from this fund if enough contributions are received. And there are many other poor little babes in just as poor circumstances looking to the fund for the only help provided for them in the heat of summer. Will you turn a little of your comparative abundance to help these perishing little children and babies? Checks may be made out and letters addressed "Free Milk and Ice Fund," care of The Omaha Bee. In the fund to date: \$15.00 G. H. Poth 2.00 Total \$17.00

College Notes

Mac Phail School of Music.

The Mac Phail School of Music of Minneapolis has had a wonderful year since moving into their new building. The enrollment has been a record breaker. The school teaches students to play any musical instrument of their choice. Mr. Mac Phail gives his personal attention to the student body. The vocal instructors are the best that can be secured to train young voices that show talent.

Summer Classes at Boyles.

During the summer months business is not conducted at high pressure. It is vacation for the third business man. But in the fall real business begins. This is one reason why young men and women ambitious to enter business pursuits wish to take training at Boyles college during the summer and be ready to accept positions in the fall. Summer classes at Boyles college are now nearly full. The student body is made up of young folks who feel the urge to prepare to become self-sustaining and to climb to positions of importance in the business world. Students enter Boyles college any Monday of the year.

Individual Instruction in French.

The School of Individual Instruction has proven that instruction to small classes produces better results than mass instruction. The French class for little children of 10 is a success. They discuss birds and flowers in French. Conversations in the sewing class are carried on in French. The little girls talk French during recreation period. Mrs. Pratt says Omaha parents are demanding the best in school work and that is what the School of Individual Instruction is giving its students.

American College Commencement.

Commencement exercises of the American College of Business, 1912 Farnam street, were held Friday night. Eighty graduates were given diplomas. After a banquet Maj. Charles W. BEE WANT ADS BRING RESULTS
