## Adele Garrison "My Husband's Love"

How madge and Harry Underwood started on their brief journey.

"I'll be on the job night and day until you get back." Ed promised with emphasis, and there was a ring of sincerity in his voice which was in itself a tribute to Harry Underwood's adroit handiwork of this acquaintance of Mamie's. The elder man had chidden the younger from a rather sudden partisan of the girl to a loyal lieutenant of his own in an incredibly short time, and with little apparent effort.

"I know that," Mr. Underwood replied kindly, and I saw that the words were like an accolade to the unclouded, ignorant youth whose ideal of polished debonair manhood was patently embodied in the man beside me.

I gave a little mental sigh—not the first I have charged to Harry Underwood's account—at the wonderful opportunities for distinction which he has missed.

Harry Underwood is uneasy.

His magnificent physique, his mentality, his resourcefulness, his executive ability, and the fascination which

he can exert when he chooses, make him a rare leader. That all of these unusual talents should be degraded to the leadership of a bootlegging gang—I could make no other deduction from the events of the past hour or two—saddened me, but I told myself, glibly, that I certainly was not responsible for Harry Underwood's moral or spiritual outlook, nor could I hope to change him at this late stage of his game with life.

Mr. Underwood turned his head to my car just behind us with Pete at the wheel, Mamie in the same seat, but suddenly huddled away from him and the suitcases with the furs securely fastened in the tonneau.

"All right, Pete," he said to the man who was attentively listening to the humming of the engine in my car, and throwing in the clutch of his own roadster, he set the car along the road toward New York at a pace which I was afraid was impossible for my slower and less expensive machine. But when I hinted as much, Mr. Underwood's reply was prompt and almost brusque.

"Don't worry. Pete will get every ounce it has out of it, and I'll attend to the repairs if it needs any at the end of the run. If Pete wants me to slow down, he'll signal. But I don't want to waste any time getting away from this vicinity. That

job—the one I flooded—is a bad hombre, and though the men are sort of sore at him, yet he has a lot of influence with 'em, too, and there's no knowing what diviltry they might cook up. If I could stay there, now, before they have a chance to put their heads together, they wouldn't dare peep, and they'll be all right when I get back, but in the meantime, I'll be just as glad when we get back into civilization."

I tried to be brave.

"I'll be right with you," I said, getting along, by myself, with my own car. I don't believe Mamie will give any more trouble, and then you could go back. I—I don't want you to get into trouble on my account."

He looked down at me with a little laugh which was meant to be reassuring, but succeeded only in being tender.

"Now that you've gone through your 'exercise,'" he quoted quizzically, "suppose you lean back and make yourself comfortable. Uncle Omaha ain't goin' to desert you, gal, not while there's a breath of life left in his old carcass, and there's quite a few—quite a few."

His ridiculous burlesque was irresistible—and I laughed in spite of myself.

"There, that's better," he said with

a relieved note in his voice. "Tuck that robe around you snugly—it's getting chilly—and give yourself up to the landscape beauties of this scrub-oak section—the arduous little laugh was real this time—as long as you can see them. And—there was an imperative note now—"Please stop worrying over everything, including my getting into trouble over this. Don't you know if I go looking for it? The other fellow is always the one who gets in bad."

There was something behind the apparently jesting words that to me was like a curtain drawn aside for a flashing second from the hidden nature of the man. I knew in this second that in these secret enterprises of his he was ruthlessness personified, that in his own parlance "the other fellow," indeed, would be "always the one who gets in bad."

But the Puritan in me for the time was too badly routed for me to give the sinister side of my companion's personality more than a passing thought. The sybarite in me asserted itself, and luxuriated in the sense of safety which was mine.

It was pleasant to lie back in the car—the last word in motor smartness and comfort—to feel the

warmth of the robe drawn up around me, to watch Harry Underwood's strong, sure hands on the wheel, to feel all responsibility lifted from me, and to know that in all human probability I should succeed in the task I had set myself. That of getting Mamie and the fur cloaks safely to Lillian in our apartment in New York.

## Your Problems

by Martha Allen

Dear Miss Allen: Some time ago I made the acquaintance of a young man about my own age with whom I was favorably impressed. He measures up to my ideal, sharing my love for nature, music, art and science. His education is of the finest. He has a bachelor of arts degree and is working now for several more degrees.

But in the face of all this there is a barrier which I have endeavored to fight for several years. He is Chinese. Does this appear too great a barrier to overcome?

I am very liberal in my views and ideas, but I can readily see the opposition which I would meet from my family and friends were I to consider marrying this young man.

Can you advise me?

UNCERTAIN.

Don't marry a man whose training, national customs and heredity are so different from your own. The Chinese are a wonderful people, but behind them centuries of culture far different from ours. Woman's position in the Chinese world is so different from that to which you are accustomed that this one thing alone would be enough to give you a difficult problem and to cause much unhappiness.

When a man and woman of different nations marry they have a bit of adjusting to do always. But when different races intermarry the gap is too wide to bridge. And marriages between men and women of different races do not work out to the advantage of the race, the nation or the individuals. However, many happy marriages of mixed races have taken place. You must, after all, be your own judge.
