By RICHARD SPILLANE. By CHARLES J. LEYDEN By CHARLES J. LEYDEN Universal Service Staft Correspondendent. Chicago. July 14.—With Winniper leading the way, wheat prices here advanc-drapidly to new highs for the year and closed today at top levels. Drouth in Can-ada, with complaints of spreading dam-uge, combined with livelier export business to send the market upward. Heavy cover-ng was credited to cash interests, while the bulls took profits on the bulges. Wheat closed 4½ to 4½ to 5% chigher. A sensationally bullish report late in he day from Cromwell, a local crop ex-pert, who is now in Canada, brought bout the final sharp flurry. He said: "Superintendents of grain departments if railroads and other such people agree with me that the wheat will be half of at year in the three provinces. The sit-ation is the worst in 20 years." "Heavy covering of September was the enture of the corn market and was redited largely to outside shorts. Cash interests bought the July and sold the expression of prices moderately with earby months. Receipts of corn were be-tw needs, and prices followed the futures. Oats advanced sharply with other rains. Canadian crop reports were un-tovarable and the domestic cash demand rengthened. Commission house buying 7 fas on a big scale, a house with north-est connections being especially active. Export buying of rye futures was more greessive. Foreign demand also was re-orted. The selling was fairly large on us hard spois in the way of profit tak-ter.

Chicago and **North Western System** C.&N.W.RY. C.ST.P.M.&O.RY.

Taxes and Dividends

In the year 1923 the tax accruals against The North Western System amounted to \$10,875,911.89.

This is \$1,661,639 more than the total taxes of all Canadian railroads, exceeding them by 18%, notwithstanding the fact that the Canadian railroads have 38,813 miles of road against 10,067 of the North Western System Lines.

The tax accruals of The North Western System for 1923 were \$6,046,345 more than the system had left for dividends and surplus out of its net railway operating income after deducting fixed interest charges.

After deducting fixed interest charges and taxes, The North Western System had left out of its net railway operating income, to apply for dividends \$4,829,566 or 2.4% on the total outstanding stock.

The outstanding stock of The North Western System is equal to only \$19,609 per mile of road

M.N.Juley President
