

Today La Follette's "Millions." To Rule Our Waves. Wheat in Politics. Criminals Sleep Well. By ARTHUR BRISBANE

"La Follette's race will cost \$3,000,000," says the New York Times. Another New York editor says La Follette will spend \$10,000,000. Newspapers worry a great deal about the millions that Senator La Follette is going to spend. They print nothing about expenditures by the other two candidates. It is wicked for an independent to use money and all right for a regular.

In the way of politics it is announced that Mr. Davis will make a very savage campaign, calling upon republicans to account for their misdeeds.

President Coolidge's attorney general Stone, who seems to be a fighting person, brings suit against the trust that overcharges farmers for binding twine.

That, following indictment of the biggest gasoline companies, plus the dizzy heights to which wheat and other grains have been climbing, constituting a "political speech" by Coolidge even if he should not say anything.

This is the political stage of "rosy reports." They pour in on La Follette, Davis and Coolidge. Coolidge is told that Ohio, Iowa and Kansas are already his.

Davis is told that with the south and New York, Massachusetts, etc., he is elected now. La Follette's followers say they have "25 states sure." The "rosy" days are pleasant, only someone is sure to be disappointed.

The government has ordered a group of flying machines that can travel through the air, on the water and on land. Only one step remains, the amphibian and submersible flying machine pulling in its wings and becoming a submarine. That will come also.

The British intend that Britannia shall rule the air waves as she used to rule the ocean waves.

Britain, flying machine development is not left to doubtful and more or less inefficient private effort. The British will establish in 1926 a regular flying machine service between England and India. Flying boats now building will carry 200 passengers, 12 tons of mail and other freight and make the trip between England and India in 60 hours with one stop in Egypt.

Wheat continues to be the greatest politician of them all. Topka reports that wheat remains plentiful and Kansas as an exciting source of wealth. If the boom in grain continues, as there is every reason to believe it will, carrying prices higher, political opinions and political betting will change.

One reporter "covering" Chicago's murder trial, says of the young murderers, "they slept as soundly as honest men in their jail cells last night."

There is nothing in the theory that honest men sleep more soundly than others. They don't. Honest men have worries, responsibilities, self-reproaches that do not afflict the criminal who accepts no responsibility whatever. Insomnia is not a criminal's disease.

The scientific world notes the discovery in France of a new anaesthetic, called "sommifaire." With no bad after effects, this anaesthetic makes possible the longest operations. It is injected into the blood, causes the patient to remain half conscious for 30 hours, which is excellent for major operations.

It is hard to believe as you read of scientific methods for avoiding pain that when anaesthetics were first used they were savagely denounced as works of the devil. Earnest preachers declared that God wanted us to suffer and it was a sin to thwart His divine will.

Joseph Greenberg of New York will return to his home with new knowledge of this country and greater respect for the size of Texas. He left Brooklyn in a little automobile to bring his son back home from "somewhere in Texas," and told his wife he would be gone "about three days." He will be surprised to find it take him about as long to cross Texas as to cross all the rest of the American continent.

Wind Straightens Silo Bent by Gale 13 Years Ago

Callaway, July 25.—Thirteen years ago a strong wind loosened one of the anchors of the Ed Comstock farm, tipping the silo slightly. A few days ago another wind came from the opposite direction and straightened the silo back to its original position.

NEW PEN-JEL Makes Perfect Jelly

Now you can have better jellies and jams, every time, with PEN-JEL. No boiling, no sugar, no "jelly" PEN-JEL never fails. A powder of pure, tasteless pectin and fine, acidified sugars! Produces a perfect jelly.

PEN-JEL preserves the natural fresh-fruit flavor and color. No long boiling. In 3 to 5 minutes you have the finest jelly and jam you ever tasted!

RECIPE FOR BETTER JAM 2 cups cherries or raspberries 1 cup water 1 pkg. New PEN-JEL 3 level cups sugar

Crush fruit thoroughly. Place in deep preserving kettle with the water. Add the PEN-JEL and stir while bringing to a boil. Boil 2 minutes; add the sugar. Stir vigorously until dissolved. Bring again to a boil; cook 2 to 5 minutes. Cool and pour into glasses. A 1 1/2 package makes 6 glasses of jam.

Army Officer, While Overseas, Wrote Wife for Divorce, She Says

Mrs. Lucile Dent Burt testified in domestic relations court Friday against her husband, Maj. Franklin T. Burt, of the Seventh Corps area of the army. They were married in Chicago in 1905 and have five children.

"He kissed me and the children goodby and put us on the train in El Paso, Tex., in 1918 and everything seemed all right," she said. "While he was in France he made me an allotment of \$175 a month and when he returned to this country he increased this to \$250.

"From Coblenz, Germany, he wrote me to get a divorce," she wrote that it was too serious a matter to do without more conversation. He then returned from abroad and came to us at Los Gatos, Cal. We talked it over more thoroughly there."

Major Burt himself brought the suit in the court here, but did not appear to prosecute it. He alleged that she refused to supervise their home, and when he asked her to look after the cooking told him to "Do it yourself."

A settlement of property rights is to the effect that he will give her \$250 a month as long as she remains unmarried, this to be decreased to \$50 a month if she remarries. His suit is \$440 a month. He carries \$29,000 in insurance.

Free Milk Saves Tiny Baby's Life

Visiting Nurse Finds Starving Infant in Tar Paper Shack on Hill.

Already acknowledged \$709.58 Della and Clark Wohlers 3.00 Donald and Byron Johnsonson 10.00 Mrs. Ellen A. Piskard 3.00 V. F. S. 2.00 Total \$737.58

A little life is flickering in a tar paper shack on a lonely hill of the northern suburbs. There a visiting nurse was called by people who had chanced to see conditions.

Not a crust was in the house. The mother sat weeping because she was too sick to go out to work. And on a bundle of straw lay little Adella, 4 months old, a mere wisp of humanity, big eyes staring from what seemed but the bones of a skull. Too weak even to cry out.

Quickly the nurse telephoned to one of the Free Milk and Ice Fund milkmen. A special wagon was sent out to carry a bottle of milk to that novel. Adella is still living and is now drinking the milk which ought to save her.

It takes money to care for Adella, and dozens of other babies and small children, and the demand is very heavy on the fund during this hot weather.

Only a very small sum is on hand now, and—please help to keep the supply of milk for these tiny waifs from running low. Give, and great will be your reward. Checks or cash, addressed care of The Omaha Bee, will do the work.

Dahlman Support Wavers; Hopkins Blames Governor

Rejected Commissioner Says Nominee 'Not Acceptable'—Others Agree With Him.

Mayor J. C. Dahlman is not ready to state whether he will support John N. Norton, democratic nominee for governor.

"I don't feel that I am bound by any party consideration to support Norton," the mayor said. "Norton has been a progressive as well as a democrat. I am going to support the best candidate, the man whom I believe will be best for Omaha. I don't know Norton, but I understand he has a good record. They say he is a good man. So is Adam McMullen. If I should support Norton it will not be because the democrats nominated him."

"He is a smart man," was the comment offered by Wallace Wilson, referring to Norton.

Thomas B. Murray said: "I will support Norton. I wrote to Brother Charley some time ago and expressed the hope that a real democrat would be named as nominee. I am glad that neither Dahlman nor Hopkins was selected."

Morlarty Bolts. John F. Morlarty, assistant city attorney and prominent in democratic affairs, stated that John N. Norton was not a democrat in 1911, and is not a democrat now.

"I am going to vote for Adam McMullen," Morlarty said. "Norton bolted the democratic legislative caucus in 1911. I don't know Norton."

"I consider Norton a first class man and an acceptable nominee," said I. J. Dunn. "He has an outstanding character, has been prominent as a progressive democrat and is familiar with the needs of the agricultural interests of Nebraska."

City Commissioner D. B. Butler considers Norton the strongest of those who were considered by the state central committee. He referred to Norton as a progressive democrat and declared his intentions of supporting the nominee.

"Absolutely Dry." Dr. Jennie Callas, democratic national committeewoman for Nebraska, says that Norton is the best candidate.

didate the party could have selected to win.

"He is absolutely dry," said Dr. Callas, "and he helped in the fight for women's suffrage. Also, he is a democrat."

John A. Rine, former city attorney, would not discuss Norton from the standpoint of party politics.

"I think Norton will make a strong

run" was the limit of his comment for publication, although he said more.

"The reason I did not get the democratic nomination for governor was because of the bitter opposition of Governor Charles Bryan to any Omaha man," declared Commissioner John Hopkins Friday morning on his return from Lincoln.

"Bryan was for Norton all the way through, although he allowed the rumors that he was for Knudson and other dummies to be circulated. Norton is not acceptable to me as a democrat because he is not a democrat."

Defaulter Sentenced.
