

### Bartlett Pears, Seedless Grapes Now on Market

Home Grown Cherries Almost Exhausted—Carload of Loganberries Expected Today.

**By MARKET BASKET.**  
The season for fruits and vegetables seems a short one. The majority of the fruits appearing on the market today remain but a brief period, in many instances for two or three weeks only.

Seedless California grapes made their first appearance on the market this week. Elberta peaches and genuine Bartlett pears also are here.

Home-grown cherries are about exhausted. Those on the market are selling for \$2.00 a market basket or 25 cents for a small box.

The raspberry and loganberry market is fair. A carload of these berries is expected by Saturday and the housewives are urged to can them next week when they will be plentiful. Blackberries are at their height now.

California peaches should be canned not later than next week as the season for them will be over soon. Colorado peaches will not be on the market until some time in August.

Watermelons are abundant. They are of two grades, the Irish white melons and the Tom Watkins. The latter are the best. All melons retail around 2 1/2 cents a pound. Cantaloupes also are at their best. Arizona pink meat cantaloupes are the finest quality melons on the market

today. They range in price from 15 cents to 20 cents. To the eye they look green but they have the finest flavor.

California plums will be good for about two more weeks and canning is advised now. Large red plums sell for 69 cents a basket; others sell for 65 cents, or 25 cents for the small baskets. Currants are 12 1/2 cents a box; sweet, juicy oranges range in price from 15 cents to 50 cents a dozen. Bartlett pears are 30 cents a basket, honey dew melons 40 cents to 50 cents each, seedless grapes 20 and 25 cents a pound. Lemons are special at one market for 25 cents a dozen. Green apples are three pounds for 25 cents.

DeLuxe Domino mints are made in four flavors, including mint, cinnamon, clove and wintergreen, and are sold in packages ranging in price from 1 cent to 25 cents. The mints are especially attractive when served at social entertainments.

In one store, calves-foot jelly is sold in sherry, cognac, medeira and port wine flavors. These jellies are recommended for invalids.

An increase of 3 1/2 cents is noted in pure lard, now retailing for 17 1/2 cents a pound. Ham is popular for the picnic. Spring chicken is 42 1/2 cents a pound.

Eggs are quoted from 24 1/2 cents a dozen to 35 cents a dozen for the strictly fresh. Creamery butter sells for 46 cents a pound while country butter is one cent cheaper.

**STILL EXPLOSION RESULTS IN FIRE**  
A still in a house at Twenty-third and Hickory streets caused a small fire Friday afternoon. Owner or operator of the still could not be located.

Fifty barrels of mash and 50 gallons of liquor were in the house. See Want Ads produce results.

### Solid Train of Wheat Shipped From Nebraska

Elevators in Good Shape to Handle Grain and Plenty of Cars Provided to Handle New Crop.

Wymore, Neb., July 25.—The first solid train of new wheat, consisting of 65 carloads, was handled through the local Burlington yards Thursday bound for the St. Joseph and Kansas City markets. The grain was loaded at stations between Wymore and Red Cloud and between DeWitt and Edgar.

Threshing is now being done at a lively rate at dozens of stations. The railway sent a train of 85 empty box cars from Lincoln by way of Crete Thursday for the DeWitt-Edgar-Holdrege line, and another train of 86 cars was received at Crete this morning for movement to Wymore, and thence to the Red Cloud and Concordia lines. The loading is now averaging three carloads a day from most of these stations. Thursday Reynolds & Bryan loaded six cars each, and Ong and Shickley 10 each. The price is advancing on wheat at all southeastern Nebraska stations. Elevators are in good shape to handle the grain, and there is plenty of cars to take care of it so far. Movement of empty box cars has also started west from Kansas City and St. Joseph to haul grain.

Aurora, Neb., July 25.—Columns of smoke rising from 50 different places in Hamilton county evidence threshing operations now in full force. The wheat crop of Hamilton county promises better than the farmers ever anticipated. While the acreage is smaller than usual, it is thought that the yield and the quality will exceed that of any year since 1915. Reports have reached the elevators of some yields as high as 48 bushels an acre. The average yield reported on the wheat which was planted late last fall is between 25 and 30 bushels an acre. The wheat planted early is yielding less than 20 bushels an acre. With new wheat selling at \$1.03 a bushel, much is being hauled directly from the threshing machines to the elevators.

Beatrice, Neb., July 25.—New wheat is coming to the local markets in large quantities, the price having jumped to \$1.06 a bushel. Two farmers of the Virginia vicinity, where John Haverkamp received a yield of 53 bushels to the acre, report that their wheat yielded 31 and 36 bushels to the acre.

North Platte, July 25.—About one-half of the wheat acreage in Lincoln county has been cut, and where conditions are in operation the wheat is being hauled direct from the field to the elevators. The yield generally is around 15 bushels, but some few fields will produce double that quantity.

Corn is tasseling out on waist high stalks, the effect of cool and dry weather. Farmers are hopeful that with moisture and warmer nights a normal crop of corn will be gathered.
