New York, Aug 4.—The wool goods trade heard today that openings of spring lines were scheduled for this week. Sales of medium priced cloakings and fine overcoatings have been large enough to keep some of the best plants active. Sliks were in steady call. There was a larger demand than usual for mixed fabrics of cotton, silk, rayon and wool. High prices ruled in yarns and trading was light. Cotton goods halted somewhat after cotton declined but there was a fair volume of new business from wholesalers and cutters.

CHAMBERLAIN'S COLIC and DIARRHOEA REMEDY

New Issue

\$25,000,000 Kingdom of Norway

Twenty Year 6% External Loan Sinking Fund Gold Bonds

Dated August 1, 1924

Due August 1, 1944

Interest payable February 1 and August 1. Coupon bonds in denomination of \$1,000, registerable as to principal only. Principal and interest payable in New York City in United States gold coin of the present standard of weight and fineness at The National City Bank of New York, the Fiscal Agent of the loan, without deduction for any present or future Norwegian taxes, in time of war as well as in time of peace, irrespective of the nationality of the holders.

Non-redeemable except for Sinking Fund

Norway agrees to redeem the entire loan through a cumulative sinking fund payable semi-annually commencing February 1, 1930. The Government may itself purchase bonds for the sinking fund or shall redeem the requisite amount of bonds by lot semi-annually at par.

These bonds are the direct obligations of the Kingdom of Norway, which agrees that if, in the future, it shall sell, offer for public subscription or in any manner dispose of any bonds or loan secured by lien on any revenue or asset of the Kingdom. the bonds of this loan shall be secured equally and ratably there with such bonds

The thrifty character of the Norwegian people, their excellent record for meeting their obligations promptly-and the conservative financial policy of their government justifies the high credit standing of the nation.

The Norwegian 6% Sterling Loan of £4,000,000 (approximately \$20,000,000)

due in 1961, issued in Yondon in 1921, was quoted on August 1, 1924 at 103, a basis of 5.84%. The five Norwegian issues listed on the London Stock Exchange were quoted August 1, 1924 at prices giving an average yield of 5.78%. It is officially stated that no default of principal or interest has ever taken place on a Norwegian National Government loan.

The total debt of Norway, June 30, 1924, was \$423,383,720. Against this debt, the state owns properties, mostly revenueproducing, valued at \$335,000,000. The total national wealth of Norway was authoritatively estimated in 1920 at \$3,350,000,000. The proceeds of he present loan will be used to fund short term indebtedness and to creat dollar balances.

Application will be made to list these bonds on the New York Stock Exchange.

We offer these bonds if, as and when issued and received by us, subject to approval of counsel.

Delivery in temporary form is expected on or about August 15, 1924.

Price 971 and Interest, to yield 6.22%.
