

Prices on Wheat Break and Close Near Low Level

Public Interest Apparently Has Waned—Corn Also Is Reactionary, Sustained by Wheat.

By CHARLES J. LEYDEN, Universal Service Staff Correspondent, Chicago. The wheat market on the futures today and after several days of trading broke sharply, closing near bottom levels. Weakness at Liverpool led to lower opening prices here. The market was largely dominated by a rapid recovery after which wheat prices were closed to 1/4c lower; corn was unchanged in 1/4c higher, and rye 1/2c to 3/4c lower.

Wheat prices were steady throughout. Action of the market reflected the idea that public interest was waning for the present at least. However, New York commission were the best buyers of wheat of the initial setback. It was a tough day for the locals who shot short on the break and long on the bulge that followed. The reaction was again a reactionary reaction. Only the early strength in wheat was sustained in New York. Selling sales have come out persistently the last few days, and buyers have backed away. The situation here was about the same. Crop reports coming show a spot recovery, and the country offerings of old corn do not increase.

Many traders held aloof from the market, pending the publication of the government report to be issued at 10:30 a. m. The trade still has plenty of faith in the rapid advance of the next two months. However, the market is still somewhat pessimistic of the world wheat supply, exclusive of Russia, at 2,000,000,000 bushels, or 200,000,000 bushels short of the world requirement. With the new crop of winter wheat about to mature, and the new crop of spring wheat progressing nicely, and with the grain commission here and there, it is not surprising that speculators have paid little attention to the persistent bear messages that filter in from the northwest. Advertisement for Asthma and Hay Fever. "I want every Asthma sufferer in this city to try my treatment entirely at my risk," Dr. Schifmann called. "Go to your druggist and get a package of my Asthma and Hay Fever medicine. It should fail to give instant relief, the druggist will cheerfully refund your money on my question whatever." The doctor says, further: "No matter how violent the attack, how obstinate the case, or what else has failed, my Asthma and Hay Fever medicine will give instant relief, usually in 10 seconds, but always within 15 minutes. Hundreds of unsolicited testimonials abundantly prove what my medicine has done, and I know it will do the same for you. I am so positively certain that it will produce instant relief and that I will refund your money if it does not, that I have no fears of authorizing the druggists to give this guarantee, or of their being called upon for the refunding of money."

Advertisement for Husband Said Why Not Try It. Wife Said She Would. Result, Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong. East Hardwick, Vermont.—"Last winter I was not able to do any work. I had backache, headache, and I was sick all the time for six months. We read about Lydia E. Pinkham's Vegetable Compound in the newspapers, and my husband said to me, 'Why don't you try it?' So I said I would, and he went and got me a dozen bottles. It has done me more good than I can ever tell, and my friends say, 'What have you done to yourself?' You look so well. I tell them it is the Vegetable Compound that makes me so well and strong. There is no use to suffer with backache and pains. I will tell every one what it has done for me."—Mrs. FRED PRIMO, Route No. 2, E. Hardwick, Vermont.

Failure of Stock Exchange House Brings No Flurry

Trading Falls Below Mark of Million, but Prices Hold Well—Few Stocks Stand Out. By RICHARD SPILLANE, Universal Service Financial Editor. The stock market today below the million share mark today but prices held well. The failure of the stock exchange house which had been carrying on the business since the episode of the street riot last week that was followed by the suspension of the exchange, which heretofore has reflected the confidence of the market, was not reflected in the market. The market was steady and prices held well.
