OMAHA, THURSDAY, AUGUST 14, 1924.

TWO CENTS to Omaha and Council Bluffs

Unbroken

After Two Conferences of Five Hours Each French and German Delegates

Unable to Agree. Time Factor Is Problem

London, Aug. 18 .- After two con ferences lasting five hours the French and German delegates to the interna tional conference tonight were still deadlocked on the question of the time to be allotted for the military evacuation of the Ruhr and it was ecided that Premier Herriot of France, Chancellor Marx of Germany, Premier Theunis of Belgium their assistants would meet again at 9 tomorrow morning in another effort to reach an agreement. Louis Loucheur and several other French political leaders are in Lonconferring with M. Herriot and the German delegation is of the opinion that these men have induced the French premier to stiffen up his policy as he seems more adamant in his contention that a year's time must

be left for the evacuation, than when he returned from Paris on Monday. the German railways. 'Agreements also were reached on the amnesty question and on other minor matters.

Germans Not So Calm. At the conclusion of the conference this afternoon, M. Herriot said: "We are in the midst of negotiations which are progressing normally and

their estimate of the negotiations merged. which Foreign Minister Stresemann regards as being in a critical state.

Prime Minister MacDonald of England and the other conference leaders are standing ready to lend any assistance possible to the three negotiating powers or rather to the two controversy.

utside intervention of any sort.

While both the Germans and the danger. proposed commercial treaty were not melting mountain snow. discussed today, it was understood the French were holding out for guarantees of liberal treatment. concessions the French may make in shortening the time for the evacuation of the Ruhr will undoubtedly be in exchange for assurances that Alsatian products will continue to be admitted to Germany duty free.

Delay Might Be Fatal.

The Germans declare that a delay in evacuation of the Ruhr might be fatal to Germans in that a change in the French government might bring in a party which would refuse complete evacuation. The French and Germans in their private conferences have agreed upon the provision of the report of the third committee which provides for the arbitration of controversies which may arise over the quantities of goods to be delivered by the Germans. The two contending powers will select arbiters or, if they are unable to agree on the arbiters. they will refer the controversy to The Hague court.

A meeting of the big 14 probably will be held later tomorrow morning if the French and Germans reach settlement of the Ruhr deadlock. At 11 in the morning, the committee of which Col. James A. Logan, ir., is a member will meet at the British treasury office to formulate the agenda for the conference of finance ministers in Paris.
