**A Wet Fight.  
An Air Fleet's Work.  
Hang Him Twice.  
Rules for Girls.**  
By ARTHUR BRISBANE

New York will enjoy a "wet" campaign for the governorship, both republican and democratic candidates, Al Smith and Theodore Roosevelt, being on record in favor of beer as against absolute prohibition.

Americans will watch with interest young Theodore the Second, following in his father's footsteps. The original T. R. went to the New York legislature, so did his son. The original T. R. ran for governor and was elected. His son is now running for governor. Whether he will be elected or not remains to be seen.

The postoffice shows that by using connecting railroads the air mail service can save time and money to business men. The saving in time from New York west is six hours to Milwaukee, Minneapolis nine hours, St. Paul 11 hours, Denver 23 hours, Oden, Utah, 36 hours, Los Angeles 41 hours, Spokane 19 hours, Seattle 19 hours.

The flying mail will undoubtedly save money and time for American business men. An adequate flying navy, useful in peace times, ready to fight in war, might easily save the country \$100,000,000,000 and national humiliation by protecting our cities from enemy air fleets.

This country's business is to prepare an adequate air fleet, the biggest, fastest, the most powerful in the world.

The man responsible is the president of the United States. He will be blamed if a fighting fleet comes through the air and finds us unprepared.

Hight poisoning case, the clergyman in cold blood saying to a woman, "Here's arsenic, I will poison my wife, we shall be married."

The prosecutor declares that in spite of his being a clergyman, an attempt will be made to hang him. If it were possible, he ought to be hanged twice, once for the murder, and once for disgracing the clergy.

The woman, Mrs. Sweetin, will not be hanged, of course. She was the victim and tool of the murderer. He had a double hold upon her.

"Long sleep, at least eight hours, no tobacco, only one cup of tea or coffee in the morning, seven hours of outdoor exercise weekly," such are rules for girl athletes in the Boston university.

Why not for all girls? Every young woman is in training for a job more important than the 100-yard dash or the long jump. Long sleep, wise living, are important in winning races. They are 10 times

more important to good motherhood. And that is the young woman's only job of importance, whether she likes it or not.

Civilization won't yield to immorality without a struggle. The police of New York are protecting and purifying the stage. In one cast stage sailors were told to stop their cursing. In another ladies were ordered to put on more clothes.

"Down with nudity, obscenity and profanity," is the motto of the police morality squad.

The question is: Can you make people moral or decent by law? Morality starts from the inside out, not from the outside in, usually.

The learned German, Prof. von Frisch, patiently studied honey bees for 12 years and now announces his discoveries. When one discovers an unusually fine place to collect honey, he returns to the hive and begins a violent dance.

Then the other bees swarm out to get their share.

Twelve years is a long time to study bees, but Darwin studied earthworms for 30 years, calculating the rate at which they build up fertile soil.

We should be grateful to our ancestors that invented and perfected speech. Imagine being obliged to dance to let people know that you have discovered a new oil well, or gold mine.

A general council of the Presbyterian church announces disappointing figures as regards increase in membership. This is officially attributed to religious controversy about the Rev. H. E. Fosdick. The

Presbyterians will make this year a great evangelistic drive for new members.

Wrangling among clergymen certainly discourages church attendance. "To convince others, be yourself convinced," said the greatest Greek teacher of oratory. If clergymen appear to lack conviction the laymen ask "What's the use?"

John W. Davis' managers are promising him that the "negroes are drifting to the democratic ticket." That makes old Abe Lincoln smile in his celestial home. He knows how the negroes are going to vote.

## PASTOR, 40, GIRL, 14, ELOPE; MARRIED

By International News Service. Nowata, Okla., Sept. 26.—Residents of Nowata are up in arms today over the reported elopement of Rev. Joseph E. Yates, 40 years old, with pretty Georgia Fields, 14-year-old Sunday school pupil in Dr. Yates' church at Aluwee.

A. W. Fields, father of the girl, has sworn to a complaint charging the minister with abduction. According to the complaint, Dr. Yates, divorced only a month ago, took the girl away in an automobile two weeks ago. A state-wide search is being conducted for the pair.

"He wields some strange power over her," the father declared when he obtained the warrant for the minister and mother before. The pastor never had courted her, never had asked our permission to marry our daughter and apparently enticed her into his car and speeded away.

"I shall do all in my power to place him in the penitentiary under the state laws relating to abduction," a note, delivered to the parents by a small boy, reads: "This is to notify you that Georgia and I have been married a week. We had a special license issued in Tennessee and were married secretly by my brother, who has a right to marry

anywhere in southern Methodist territory. If you forgive us we will return home immediately."

The note, delivered yesterday, gave the worried parents the first information about their daughter.

## Jansen School Dedicated.

Jansen, Sept. 26.—The new modern standard school house in District 17 was dedicated Wednesday. Superintendent W. H. Morton of Beatrice schools and Eva B. Shuman, county superintendent of the Jefferson county schools, were speakers. The program included a basket dinner in the school basement. About 200 were present.
