not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the masty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded.
