Cornhuskers Get Jump on Visitors by Scoring Touchdown in First Period of Play.

Close Score Big Surprise

By RALPH WAGNER. Memorial Stadium, Lincoln, Neb., Oct. 4.—Nebraska's Cornhuskers opened their 1924 football season here this afternoon by surprising the football world in holding the University of Illinois team, co-champions of the Western conference, to a 9 to 6 score.

Glory in Defeat. With defeat goes glory, for the Cornhuskers. An inexperienced team trotted out from the Nebraska side of the giant stadium at 2 this afternoon and when they ran signals up and down the field few in the stands thought the red jerseyed gladiators would hold "Red" Grange and his mates to a 9 to 6 score.

Zuppke Uneasy. Coach Zuppke was probably uneasy throughout the game. His famous "Red" Grange didn't get away and make runs in true Grange fashion. The Huskers had Grange "spotted" from start to finish and only twice did the famous human gridiron cyclone succeed in surprising the crowd.

Rhodes Breaks Through. The one bright spot of Nebraska's play was the spectacular run made by "Choppy" Rhodes, left halfback.

Dairy Delegation Inspired by Visits to Wisconsin Farms; Excursion Lends an Impetus to Dairying in Nebraska

A week, spent in the best dairy section of Wisconsin, and a couple of days at the National Dairy exposition at Milwaukee, is enough to entice anyone who has given even slight thought to the dairy business.

Wisconsin's development is not the result of haphazard methods nor of three or four years of effort. It is the result of scientific study of all the elements entering into successful dairying and long years of experience.

Nebraska has many advantages over Wisconsin. Nebraskans who enter the dairy business have the experience of their Wisconsin friends to guide them, just as the farmers of this generation have the experiences of their pioneer fathers and mothers to guide them.

The experience of D. L. Williams, owner of the Wern farm, about six miles from Waukesha, Wis., may be taken as typical of the really big and highly successful dairymen of the Badger state.

Nebraska Better Fitted. What Mr. Williams has accomplished in 40 years can be accomplished in Nebraska in far less time. For Nebraska soil will produce more per acre than Wisconsin soil, and this state has a better climate.

Soviets in China Seize Railway; U. S. May Move

By LOYD LEBHRAS. A S. S. start of serious situation is developing in the far east as a result of the seizure of the Chinese Eastern railway by Chang Tso-Lin, warlord of Manchuria, who is now at war with the central government.

Although Secretary of State Hughes is in Cincinnati and Under Secretary Joseph C. Grew refused to comment on the international complications that are developing, there is every indication that the United States will be drawn into the vortex of the diplomatic exchanges certain to result from the war lord's latest move.
