

Better Lighting Will Be Taught Through Kiddies

Davidson Says Home Lighting Drive Greatest Campaign Since Liberty Loan.

The better home lighting activity now being carried on nationally is greater in magnitude than any other campaign carried since the liberty loan drives, according to J. E. Davidson of the Nebraska Power company, who is national director of the activity.

"Several years ago when I was chairman of the public relation section of the National Electric Light Association, I strongly advocated the desirability of paying more attention to the lighting in the homes, and I have taken advantage of every opportunity to sell the idea to electrical association conventions and other meetings of electrical men," said Mr. Davidson.

Defective Eyesight.

"Plans were started about a year ago for an intensive campaign to promote better lighting in the homes. Although we have realized for a long time that the eyesight of the people of our country was being seriously impaired by the poor lighting conditions in homes, we were jarred into action by discovery that more than 10 per cent of the men drafted into the services of the country during the world war were rejected on account of defective eyesight. We also are told by the Eyesight Conservation Council of America, that 25 per cent of the 24,000,000 school children in this country are suffering from defective eyesight.

The plan is strictly educational in its operation. It seeks by a national essay contest among the school children of the United States and Canada, to spread the gospel of better home lighting among the 12,000,000 wired homes. It is generally conceded that the most effective method of

teaching the people or a nation is through the school children who will soon be the leaders of thought and industry in that nation. To the accomplishment of its purpose is the better home lighting activity dedicated."

Second White Child Born in Hamilton County Is Residing Still on Homestead of His Birth

LEFT TO RIGHT: Jess Chaffee, M. R. Worthington, P. J. Refshauge, Clyde Wideman

Aurora, Neb., Oct. 4.—The second white child born in Hamilton county in 1859, Jess Chaffee, still resides in Hamilton county on the original Chaffee homestead, near the Blue river, in Farmers' Valley precinct.

Mr. Chaffee will be present at the Pioneer Days' celebration in Aurora, October 5 and 9, and will take part in the part of the program devoted to the telling of early reminiscences by pioneers of Hamilton county.

The first white child born in Hamilton county was the late Orville Westcott. A sod house, built by the Horseshoe club of Aurora, a reminder of pioneer times in Aurora, will be on display at the Pioneer Days' celebration. The building of this sod house has been supervised by M. R. Worthington, an old homesteader, who located in Hamilton county in 1872, at which time he constructed many sod houses.

The pioneer celebration is being given under the auspices of the Aurora Chamber of Commerce, of which P. J. Refshauge is president.

Mrs. T. E. Williams of Aurora has charge of the window decorations, and each store window around the square will have on display old-time relics, costumes, Indian relics, etc.

All old settlers of Hamilton county, who have moved from the county, have been given special invitations to attend this celebration. Many will attend the festivities. Perhaps the most notable of these is Hon. A. W. Agee, former lieutenant governor of Nebraska, now judge of the district court at Ogden, Utah.

The main feature of Thursday afternoon will be a ball game between the Omaha Western league team and the Chicago Union Giants.
