

**"York Your Center of Service" Adopted as Slogan for City**

York, Neb., Oct. 10.—The slogan, "York, Your Center of Service," submitted by Mr. J. R. Smith of York, was awarded the \$10 prize offered by the York Commercial club. Hundreds

of slogans were sent in from York and other towns in Nebraska and from other states, the contest being open to the world.

The adopted slogan as arranged contains the word "York" in the center of a circle with the words "your center of service" in a rim. In a second rim outside this are the various lines of service which the town offers—industry, business, culture,

beauty, progress, schools, churches, homes.

It is the intention of the Commercial club to use the cut on stationery and in various ways to advertise the town.

(Continued From Page One.)

the process of passing a second time an unconstitutional act, then the will of congress becomes the supreme law in the nation, not the constitution.

**Promised Influence.**  
It is because La Follette has promised his influence in breaking down the constitution, says Dawes, that the socialists are with him. They would not be with him otherwise, he charges, and for that reason the socialists are the forces with the greatest influence in the La Follette move.

The great body of other voters throughout the country, who are planning at this time to vote for La Follette are without influence with La Follette, believes Dawes, because they are unorganized. It is for this reason, Dawes believes, these voters will be deluded unless they learn the real truth of the La Follette-socialist deal.

**Only One Issue.**  
It is because Dawes feels that there is no other issue, can be no other issue until this issue is decided, that he gives such small attention to other issues.

He does not even mention the record of the republican party in cutting down expenses and saving the money of the taxpayers.

He has only referred indirectly to the national budget in which he had so large a part.

**Silent on Dawes Plan.**  
He has not mentioned the Dawes plan for the rebuilding of Europe. He insists that first of all the safety of the constitution shall be assured—that all that this means in the matter of individual liberty, shall be made safe.

In fact, the slogan of his fight might well be—"Make sure of the constitution."

Radicalism in the west, says Dawes, is not the radicalism of east side New York, and West Madison street, Chicago. He declares his belief that the men and women in the west, the section where there is almost 100 per cent literacy, where there is the greatest proportion of property owners, where home means so much to those who live in homes, where religious liberty is real—will not amalgamate with the radicalism of the big cities of the east.

**"Red Flag or Constitution."**  
It is for this reason that Dawes always closes his addresses by stating the issue to be "the sinking sands of socialism and the red flag, or the constitution of the United States and the American flag."

**Lincoln Highway Graveling Will Be Started Next Week**

Gravel pits have been located near Buda, Gibbon and Shelton. Twenty miles of newly graded road will be surfaced with four inches of gravel. **Approaches to New York Bridge Being Repaired**

Fairbury, Oct. 10.—Andy Baker, now living in retirement at 807 Vine street, Fairbury, is the oldest settler
