ADVERTISEMENTS. Society of Fine Arts. October 13th to 23rd is national picture week. Its purpose is to stimulate interest in good pictures and especially to encourage the hanging of fine pictures in homes.

The Society of Fine Arts is celebrating this event with an exhibition of prints, drawings and water colors from the collection of Omaha art dealers. The purpose is to show that works of art are available to the person of modest means as well as to the person of wealth. The prices are included on the label.

Many of the exhibits are in black and white, numbering among them some very exceptional sketches. There are also a few color prints, lithographs and engravings also in this class. Most of these are by American artists.

There are sketches in color, wood block prints and mezzotints also in color in a wide variety of subjects, and process prints reproducing the same subjects in the ordinary color prints by their faithful to and exact reproduction of the color and texture of the original paintings.

Considering the fact that our pictures are one of the most important elements in our modern home, and that the first thing seen by one entering the home is the picture, it is certainly worth the effort and cost to have a picture that is a work of art.

"We wear clothing that fits our own type, for our own comfort and appearance, but we do not as a rule exercise the same discrimination in our pictures. We take them for granted because they happen to have been hung. They do not 'wear out' literally although they may have been hung for years. It takes little effort to insert a new picture in an old frame and this is a simple procedure provided the old frame suits the new picture."

During the summer of 1923, the Society of Fine Arts, in cooperation with the Omaha Art Association, has been going about Omaha finding in our homes, elevators, railroad yards and bridges such material for painting as prompted him to call Omaha a "picture gallery." A group of his drawings in chalk will also be shown at this time.

Nothing distinguishes a home quite so much as good pictures. If you cannot own paintings you can at least own etchings. If you must confine yourself to color prints, let them be the best, keeping away from hackneyed subjects—choosing rather for their suitability to your home and for what they mean to you personally.
