How to Solve the Puzzle. Each number in the diagram indicates the beginning of a word, reading either vertically or horizontally. The same number in some cases begins both a vertical and a horizontal word. The definitions of the words to fill the diagram are given in the lists labeled "Horizontal" and "Vertical," with numbers showing where to start the words in the diagram. To see how many letters each word has, count the white spaces until you come to a black square. If you have put in the correct words. they should all agree, horizontally
