

Police Locate Burglar Loot

Speeders Confess Series of Robberies When Tools Are Found.

Loot valued at \$2,000, stolen from 20 Omaha homes and apartment houses within the last two months, was recovered by police after Ray Shepard and John Ryan, arrested Wednesday night, confessed Thursday to the long series of robberies.

Another man and a woman who acted as a "saleswoman" for the stolen goods, are implicated in the confessions obtained from the two men.

The men are convinced that the two men have committed a number of the recent safe robberies in Omaha, but have not been able to obtain a confession thus far to these crimes.

The two men were arrested for speeding Wednesday night after Capt. Charles Payne and Motorcycle Officers Flanagan and Joe Cardella had chased them for a dozen blocks.

"Soup" Found in Auto.

In examining the car, the officers found two revolvers, burglar tools, and a small bottle of nitroglycerine. They were at once taken to the police station for questioning. They declared that their homes were in Kansas City and that they were living in Omaha at the Rex hotel.

A search of their rooms at the Rex hotel revealed huge quantities of valuables of every sort, including jewelry, silverware, silks and laces and fur coats. This is said to represent only a part of the loot which they have taken in the past two months, as they admitted Thursday morning that they had disposed of a large portion of their loot through their "agent" in Kansas City.

Name Their "Agent."

They gave the name of their "agent" as Max Gold, and Kansas City police have been notified of the charges. The men declared that Gold had come to Omaha with them when they arrived here two months ago and had assisted them with several "jobs" during the Ak-Sar-Ben carnival.

Police have not yet learned the name of the young woman who acted as "saleswoman" for them in Omaha. She fled from the Rex hotel before police arrived to search the rooms.

W. W. McBride, 2322 Jackson street, whose home was recently robbed of clothing and other articles worth about \$700 found a large part of his property among the articles found in the men's rooms.

Legislation to Be Asked for Aid of National Guard

Grand Island, Nov. 13.—At a meeting of the board of directors of the Chamber of Commerce, a motion was unanimously adopted requesting representative McLellan and Senator Humphrey to introduce a bill providing adequate support for the National guard companies of the smaller cities by the state or authorizing such cities to make up such deficiencies in guard company budgets as may exist for activities necessary to keep such companies up to standard and to prevent any shortages from being met by the officers and men themselves.

El Paso, Tex., Nov. 13.—George F. Hedrick, La Fayette, Ind., international president of the Brotherhood of Painters, Decorators and Paperhangers of America, was elected today president of the Building Trades Department of the American Federation of Labor.

Pinto Orders Day Nursery Closed

Scarlet Fever Causes Junior League Institution to Be Locked for Two Weeks.
The Junior League Day nursery, Twenty-fourth street and St. Mary avenue, was closed for a period of not less than two weeks by Health Commissioner A. S. Pinto, on account of a recurrence of scarlet fever.
This institution was closed October 10 for 10 days, after two children were stricken with scarlet fever. The building was fumigated at that time and danger was believed to have passed. Since the place was reopened another case was reported and on Wednesday of this week a fourth case was observed.
An unusual circumstance of the situation is that William Hamold, 3, the last victim, was taken to the city emergency hospital on Wednesday, the same day on which Phyllis Bernard, 4, was returned from the hospital to her home, and another coincidence is that the Bernard girl and the Hamold boy live at the same address, 511 South Twenty-fourth street.
The second patient, LeRoy Eastman, is still at the city hospital. Forty-one children were being cared for at the home on Wednesday when the Hamold boy showed advanced symptoms of the disease. Pinto stated that his department will fumigate the institution.

POSTOFFICE BLAST KILLS THREE MEN

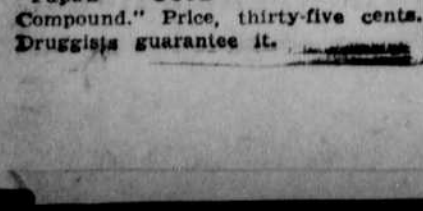

Grand Rapids, Mich., Nov. 13.—Three investigations were under way today to determine the cause of the explosion at the federal building here which killed three men and seriously injured 13 other persons.
Whether the blast, which wrecked the postal receiving station and buried several postoffice workers under debris, was caused by a bomb or the ignition of illuminating gas, remained a mystery as government investigators and the police and coroner's departments began their inquiries. Police and troops guarded the scene.
Dale Newhouse, 19, employe of the E. O. Bulman Manufacturing company, who was unloading parcels when the blast came, died today in Butterworth hospital, bringing the death toll to three.
Herman Pettersch, 43, postal clerk, and Ernest A. Roth, 30, mail truck driver, succumbed late last night.
Of the injured one is not expected to recover. He is Edwin V. Annatt, 32, postal clerk.
The explosion burst hundreds of windows for a block or more in three directions and hurled bits of debris skyward and out from the east side of the building for hundreds of feet.

FLIGHT TO HAWAII PLANNED BY NAVY

Washington, Nov. 13.—Not content with its successive aerial conquests of the Atlantic ocean and the globe, America is to undertake an epochal leap over the Pacific ocean to Hawaii.
It was learned at the Navy department today that the dirigible Shenandoah is to make the flight from California to Honolulu early next year in connection with maneuvers of the Pacific fleet.
The flight across more than 2,000 miles of open water has the hearty approval of the secretary of the navy, Curtis D. Wilbur.
Tentative plans toward that end have been discussed by aeronautical experts for many months and a report on the equipment necessary is now being prepared for the secretary.
The Pacific fleet is to assemble off the California coast in February and will probably depart for Honolulu late that month, acting as a convoy for the aerial greyhound.
Navy officers have enthusiastically supported the project, Rear Admiral Moffett, chief of the bureau of aeronautics, being one of the leaders of the movement.
Now the Zeppelin Los Angeles has arrived from Germany, it is felt that the last objections to the risking of the Shenandoah have been overcome, as the United States would have a capable substitute should mishap befall either.
Although a definite starting point has not been decided upon, it is understood that San Diego will be selected because it has the only mooring mast in California.
Plans Formed to Keep Farm Bureau in Buffalo County
Kearney, Neb., Nov. 13.—Efforts are being made by those interested to retain the farm bureau in Buffalo county. Submitted to the people at the recent election, the farm bureau budget was defeated by a fraction over 1,000, and more than 3,000 failed to vote on the issue. It is planned to carry on by raising membership funds, or through the assistance of outside sources. The executive committee will hold a meeting Saturday for the purpose of outlining plans.
Columbus Credit Bureau Launches Essay Contest
Columbus, Nov. 13.—The Columbus credit bureau has launched an essay contest offering prizes of \$15 and \$10 for the best essays on the subject "Why Bills Should Be Paid Promptly." The contest is open to any one in Nebraska and Iowa. The number of words is limited to 500.
