Police Have No New Clue in Slaying

Members of Pastor's Family Questioned About Student He Visited in Hospital Day Wife Died. Suicide Theory Scouted.

Columbus, O., Nov. 18.—Police tonight admittedly were without a clue to the mysterious cremation late yesterday of Mrs. Addie Sheatsley, 50, wife of Rev. U. V. Sheatsley, pastor of Christ Lutheran church of Bexley, a suburb, whose charred body was found in the heating furnace in the basement of their Bexley home.

County Prosecutor King, with Police Lieutenant Shellenbarger, spent the entire day questioning members of the family and witnesses. No information which would throw any light on the case was obtained.

The last witness to testify tonight was a driver of a bread wagon which left bread at the Sheatsley home about 2 p. m. yesterday. He declared that he had not seen the woman at that time nor had he answered or seen anything unusual about the house.

The tragedy last night, said by Coroner Murphy to be a suicide, but declared to be a murder by County Prosecutor King, is one of the most baffling in the history of the Columbus police department.

The Sheatsleys have lived here for nine years, all of which time the minister here had charge of the church. Their domestic relations have always been amicable, police were told.

Son Twice Questioned. Clarence, a son of Sheatsley, was twice questioned by the prosecutor as to why he did not report the finding of his mother's body in the furnace shortly after 3. Testimony showed that his older brother and both sisters came home more than an hour earlier than the father, but that the younger boy did not report his finding to them.

Milton, an older brother, said that he attended classes at Capital university during the morning and that all members of the family were present for dinner at 12. He and the two girls left home about 12:15 p. m., leaving Clarence, his father and mother alone in the house.

Testimony of the prosecutor's hearing indicated that the minister left home about 1:30 p. m. and Clarence testified that he left about 15 minutes later.

Milton returned home about 2:15 p. m. and smelled a peculiar odor even before he had entered the house, he said. He did not investigate, thinking it was a rabbit pelt burning, he said. Questioned as to the odor he said it was like "burned hair or flesh."
