> How to Make Pine Cough Syrup at Home

Has no equal for prompt results.

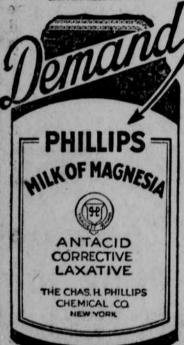

Takes but a moment to prepare,
and saves you about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine cough syrups are combinations of pine and syrup. The "syruo" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pintmore than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant. You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

thinks work will do him more good and opportunity for those that have intelligence and willingness to

The fact that the population is

people that visit the White House, etc. By the end of the week the president has probably used all parts of his brain, from the part around the back of his neck. It's everlastingly using just a small brain section that wears you out. That's why students live long.

The wife of the Rev. C. V. Sheatsley of Columbus, O., is found burned to cinders in the furnace of the suburban home. The coroner accepts the explanation that the lady crawled into the furnace, while the fire was blazing, and shut the door after her. That reminds you of the man accused of killing and stealing sheep who said, "I will kill any sheep that littles me."

Mussolini complains, justly, that our immigration laws are a hard-ship for Italy. They are an infinitely greater hardship for the United States. The skillful workers that Italy would send to us, and that we stupidly refuse to admit, represent the very wealth that Italian immigration has rendered the United States in the building of railroads, in agriculture and in other directions. The Italians that we are now keeping out, and other good Europeans of the right kind, would mean in a few years thousands of millions added to the wealth of the United States and other thousands of millions to the value of land in the United States.

Florida alone could use, fully take

Florida alone could use, fully take It is not absolutely impossible care of all Italian immigration for the a woman demented, and indif-

oil lamp, and hung on while he burned himself to death. It takes unusual determination to do that. The case of the Rev. Mr. Sheatsley's wife should be carefully investigated.

Let's hope that the learned doctor

The stock market continues boiling, 72 stocks going to new high level prices yesterday, including 18 railroads and 35 industrials. More than a million shares were sold in the first two hours of trading.

Be careful how you risk your fate on the edge of that maelstrom.

Be careful, also, how you sell anything short. There is a great deal of money in this country, and it contains many fools. If the public ever starts gambling on a big

THE LITTLE PIANO WITH THE BIG TONE

The MIESSNER Piano, in the words of the famous tenor, John McCormack, "fills a long felt want, the want of a small piano with splendid action and lovely tone."

Its responsive action and sweet, singing tone, make the MIESSNER an ideal piano for children as well as adults. Of vital concern to both, the improved music rack of the MIESSNER lies just above the keys, directly in the natural line of vision. There is no strain on the eyes, for they easily follow notes and fingers at the same time.

No taller than a grand, the MIESSNER may be moved away from the wall and still remain in harmony with the setting. With its attractive case lines, handsome finish, and convenient size, the MIESSNER is just the piano for small homes, bungalows, and apartments.
