Is Logically the Cab for You

Have you ever kept track of the cab companies which have operated in this city from time to time-do you know how many have appeared and disappeared in the last ten years?

Any man can establish a store or a bank, or be a lawyer or a doctor, but you will not patronize him unless you know he is competent and decent and reliable. Why should there be any difference in the cab business?

Yellow Cab is morally and financially sound. It is one of the most successful cab companies in the world. Isn't that the cab for you and the members of your family?
